DR. MIEDEMA: We put together a tentative agenda,
 which is always tentative. It's just to try to keep
 us moving along a little bit.

MS. SPENCER: When we left last time, we were going to talk preliminarily about 11 and -- 12 shouldn't be a major issue, but Article 11 on there, we didn't -- when we left last week, we had not -- we have not done any work on that beyond looking at it and identifying the --

10DR. MIEDEMA: That's why I thought we could just11start to take a look, if we have time --

12

MS. SPENCER: Okay.

That's why I did the old business 13 DR. MIEDEMA: first, things we'd started working on that we need to 14 finish; and then the last couple are the new things 15 that, if we have time, some of those are pretty minor. 16 Some of them are more major, some of them are pretty 17 minor. We might be able to make some progress there. 18 I started off with the ones that we actually did last 19 week, Articles 1, 2, and 4, that we basically came to 20 consensus on. So I did make a copy of those. I'll 21 give you those, Lynn. 22

23 MS. SPENCER: I have a copy you sent to me. 24 Article 4, let's hold off on that, so -- in terms of 25 the duration of the agreement, because we'll see how

the compensation discussions go. You heard the 1 legislature's going to be in extended session, so 2 you're -- their budget is not set yet, or they're not 3 -- that's what the fight is over. So we want to see 4 how that works out in terms of compensation. So we'll 5 hold off on that one. But 1 and 2 and 7, I think, 6 even, you know, your management rights was also -- I 7 think you'd sent me that one too. 8

9 DR. MIEDEMA: Now, the question I have with 4 --10 you're talking about the length of the contract?

MS. SPENCER: Right. So if we get into the 11 compensation and we talk about that, if the budget 12 numbers are not there for you to make a commitment to 13 a package over three years that would be satisfactory 14 to both parties, then we can look at one year and then 15 come back and revisit it. So that was something -- we 16 didn't want to sign off on that yet until we have at 17 18 least gotten an understanding of where we are with compensation. 19

20

DR. MIEDEMA: Okay. That's fine.

MS. SPENCER: And before the contract's ratified.
That might be one that's not a major thing to change.
DR. MIEDEMA: So, actually, I signed this,

24 because you said that you didn't have a signed one.
25 Same thing, I just gave you a signed copy so that you

had --1 DR. MARSHALL: Is that one and two? 2 MS. SPENCER: Yeah, one and two. 3 DR. MARSHALL: I'll take them. I'll hold them. 4 MS. SPENCER: And then do you want -- here's a 5 copy -- I don't know if it matters, the date's 6 different from --7 DR. MIEDEMA: That's fine. That's not a problem. 8 All right. Article 3, we had a couple quick things in 9 10 there, and maybe we can close that one up. MS. SPENCER: Okay. That'll be good. 11 DR. MIEDEMA: In Article 3, what we were looking 12 at was the definition for SACSCOC and e-learning. 13 Anyone here teach online? Chuck, is that okay, 14 definition-wise? 15 MR. KISE: Fine. 16 DR. MIEDEMA: Then I'm fine with that. 17 18 DR. MARSHALL: I'm also going to alphabetize all of these. It's making me crazy. So I will go back 19 and make that change, but it won't change any 20 definitions. It will just be alphabetical. 21 DR. MIEDEMA: And then SACSCOC? 22 23 DR. MARSHALL: This is why it's bugging me. 24 Where did I put it? MS. SPENCER: In the list of acronyms probably, 25

1 right?

DR. MARSHALL: It is in the list of acronyms. 2 It's not in the definitions. So are we okay with 3 that? Here's the -- last time we met, I told you I'd 4 start building a list of acronyms, so here they are. 5 And they're in the front, right after the table of 6 contents. So are we -- do we want to clarify that 7 even further by having a definition also? 8 9 DR. MIEDEMA: No. Having it in the list of 10 acronyms will be fine. We just need to make that change throughout the document. 11 DR. MARSHALL: I did. 12 DR. MIEDEMA: Then I have no problem with that. 13 My only other question under Article 3 was on 3.11, 14 and that is simply where it says, "May be a Vice 15 President, Provost, Associate Provost, Work-force 16 17 Administrator or Dean." I'd like it somehow to say, 18 "Examples are." MS. SPENCER: Yeah, I think we put that in there. 19 DR. MIEDEMA: Okay. I wasn't sure if we -- if 20 that had gotten in there or not. 21 MS. SPENCER: Yeah. Because we had left the 22 23 table. 24 DR. MIEDEMA: 3.11? DR. MARSHALL: I don't know where you are. I'm 25

1 sorry.

DR. MIEDEMA: Well, it's 3.12 on yours. 2 DR. MARSHALL: So it's in there. 3 DR. MIEDEMA: That's perfect. All right. We're 4 5 done. I thought that one might be a quick one to finish. 6 DR. MARSHALL: So 3 is good? 7 DR. MIEDEMA: Yes, ma'am. 8 9 MS. SPENCER: Okay. Now, in 6 we had some 10 questions. We had -- well, there's a couple things in there. Let's begin --11 DR. MARSHALL: Where are we going? 12 6. Oh, in 5 -- well, before we get 13 MS. SPENCER: there, like, in 5, we changed the -- and you can see 14 this when we send the document to you, but we just 15 changed 3 credit hours to 30 load points, in language. 16 17 But we've highlighted those for you, so -- from the --18 DR. MIEDEMA: That's correct. Thank you. MS. SPENCER: And then -- I think that was it in 19 5, wasn't it? Okay. And textbook selection, we 20 didn't talk about changing anything there. 21 DR. MARSHALL: Back in 5, Lynn, there was one 22 23 more change. 24 MS. SPENCER: There was one more change? I'm 25 sorry.

б

DR. MARSHALL: 5.3(C).

1

2 MS. SPENCER: Oh, that's right. We did clarify 3 that.

4 DR. MARSHALL: I believe it's number 5 for you 5 all. And it was this issue with -- where it said 6 Tenure Committee, we just struck that. It just seemed 7 to be redundant. Right?

8 DR. MIEDEMA: No problem.

9 DR. MARSHALL: Number 6, Lynn.

MS. SPENCER: The concern that we had was when we -- the last time we opened the full book, 2012-2015, and I said this before, I wonder if it's a scrivener's error, because I don't have anything in my notes about dropping -- about the handbooks, 6.16. Well, let's go -- pardon. There were some things that we struck in Selection of New Faculty, weren't there?

17DR. MARSHALL: Yeah. Just give me a number, and18I'll --

19 MS. SPENCER: 6.11, Enhancement of Professional 20 Skills. I think you handed me some things that you 21 want to clarify there. So 6.11(C). So we'd ask, 22 like, if faculty may use the TRP for student loan 23 reimbursement, student loans must be in good standing, 24 current, and may not be delinquent, default, or 25 deferred status. If the loan occurred within the past

12 months is what you want to insert in there.

DR. MIEDEMA: Right.

1

2

MS. SPENCER: Why? What's the thinking there? I
mean, why limit it to the past 12 months?

5 DR. MIEDEMA: You may have a loan that you took 6 out in 2005, before you even started at the college; 7 why is the college paying for that loan?

MS. SPENCER: Okay. So what -- you want to 8 specify that it's something that you earned while you 9 10 were at the college? If somebody has worked on their doctorate, and they've gotten tuition reimbursement 11 for some of that stuff, then the loan covers the rest 12 of the costs. Somebody's here, and they've done that 13 in the last five or six years, are you willing to 14 extend it to that, maybe, a little bit further, or you 15 want to think about it, or is this --16

DR. MIEDEMA: Let's -- we need to take a look at 17 18 that, because I'm not sure how much that would end up costing. That's a great unknown. When we do it based 19 on the situation we know, we can actually start to 20 project what that might cost in the course of a year. 21 When you're saying, I owe -- I still owe \$70,000 for 22 23 my PhD, how many years is the college going to pay for 24 my PhD? That's -- you get that cumulative among a number of people who are doing it, it's harder to 25

figure out how to budget and fund that account. So
when we take a caucus, I'll talk with Darla and see if
we can get some information on that. That's where
that came from, it was just too nebulous, that it
could be anywhere from ten dollars to three million
dollars that we need in that fund.

MS. SPENCER: Okay. Selection of New Faculty, we
struck language there, 6.13. Was that at the previous
session? I think we had agreed to this. It was just
repeated.

DR. MIEDEMA: Yes. You had suggested language,and we said we were fine with that change.

MS. SPENCER: So our next one is -- we're going 13 to talk about 6.61, Councils and Committees, "A", so 14 the total number of distribution of members and 15 lengths of service are specified in the handbook 16 which, for reference, are included in this agreement. 17 18 And you wanted to eliminate that language? And here's -- and I -- last time we met, I didn't really have an 19 example for you. And the concern, I understood, was 20 that you didn't want it to slow things down, like 21 22 having it handled here and there and you have all 23 these people working on it. But I think it protects 24 us in some ways. For example, the path towards tenure, committee that's now in place, and they're 25

looking at aligning the language, looking where the
 gaps are as far as the handbooks, the tenure
 application, those kinds of things. And, you know,
 the work that Debbie Anderson has done trying to look
 at where we align MCC with TPD with tenure and rank
 and those kinds of things.

So in some respects, like looking at that, as we 7 address that in the next year, to have to go and do an 8 MOU and have the whole process ratified again is even 9 10 slower than just looking at the handbooks and saying, this is where we'll change things. And we understand 11 that we're working on the same page as far as changes 12 are concerned. It's something that, you know, we're 13 -- we're working towards the same things as far as 14 rank and tenure and those kinds of things. 15 And, certainly, nothing is going to change in the handbooks 16 that's going to be detrimental to the college or that 17 18 would be detrimental to the faculty. So it seems to me it's a natural thing -- protection for both of us. 19 And, actually, a little more flexibility to have that 20 in there and say, we can make changes in the handbook 21 by mutual agreement. That was the example. 22 But 23 looking at path to tenure, that's where it came up in 24 the --

25

DR. MIEDEMA: I don't see a need for an MOU, if

you're making change in how you're doing your 1 business. As long as we've come up with those 2 mutually agreed by goals at the beginning of the year. 3 We are going to look -- TPDC is going to look at where 4 there may be gaps in that system. We sign off that 5 that's what the goals are. You have, then, the 6 latitude within your committee structure to look at 7 those problems without having to come back with final 8 or intermediate documents that say, we've done this, 9 10 we've done this, we've done this, or wait until we have the next series of reviews of these things. It's 11 your business to run. I just don't see why there's a 12 need to have that language attached to the contract. 13

The other thing that that does, which can make it 14 confusing, not just for the faculty but for 15 administration, is I now I have two different 16 documents that I have to review to make sure I'm 17 meeting all the dates and all the requirements. It 18 should either be in one place, or the other, instead 19 of having a whole list here and a whole list here, 20 which makes it difficult to keep track of. That's why 21 in other places in the contract, I've said, let's not 22 23 do all the specific dates. Say it needs to be done by 24 this date, and let me work backwards, rather than having five different steps that I could potentially 25

falter at. I need to have it done by this, it's my
 job to get it done -- get it started in time to meet
 that need.

MS. SPENCER: But here's the thing, you're 4 talking about faculty in the five year process now for 5 tenure. And as you -- as things come up and 6 anticipate -- the issue they're having with the 7 student opinion surveys, or the idea, like, that they 8 have to meet so many load points that -- we're going 9 10 to align that stuff. But this is a work in progress. But the other part of that issue is that faculty 11 seeking tenure deserve some protection. And the idea 12 that this contract would include those handbooks gives 13 them some protection. So if there are changes to 14 that, we both looked at it carefully and understand 15 with respect to contract, we're protecting the rights 16 of faculty and the college in those processes. 17

18 It's not in there to slow things down, but it's in there as a protection, so that as we -- for 19 example, with the tenure, if we look at that and we 20 make changes, if that ends up being detrimental or it 21 infringes on the rights of the faculty in some way, 22 23 then, you know, we should have that up front rather 24 than, you know, dealing with a grievance later or trying to sort this out. I just see it as a 25

protection for the faculty and for the college too. 1 I mean, if those councils decide to do something that's 2 not part of the contract and it's not vetted by you, I 3 mean, that seems like it's a fair protection for you. 4 And it's not -- I really want to emphasize, it's not 5 designed to slow it down. And I know what you're 6 talking about, because before we've had these 7 handbooks, and it's like, holy cow, like five or six 8 drafts come through, and then you got to sit there and 9 10 read the whole thing. And I do understand that, but I think the councils are more mature -- you're making --11 and we're in agreement on that, they're more mature 12 now that they proceed in a way that's -- I mean, that 13 was a whole new ball game when we did that initially. 14 But now they're a little more mature, especially with 15 respect to TPDC, and they're really handling a lot of 16 these issues. And I think if we say, by extension, 17 18 it's in the contract, and they just -- it's as simple as an e-mail. Send us an e-mail, here's the contract, 19 take a look at this. I know it's more than that, but 20 it's not designed to slow things down. My concern is 21 that we want to make sure that faculty have some 22 23 protection in case there is something that happens in those handbooks that, like, blows up because it's 24 contrary to contract or it infringes on their rights 25

or it ends up to be a grievance or a court case or
 arbitration or something like that. So this allows us
 a mechanism to go through and look at that and say,
 okay, we're okay making these changes.

5 I mean, I don't see it has to be an onerous 6 process, because I do think those councils are up and 7 running in a way that's -- they're functional and 8 they're doing good work that benefits the college and 9 the students. So I just -- that's my concern.

10 DR. MIEDEMA: We'll discuss it when we break. 11 Because I just don't see where we're gaining 12 protection for the faculty with the handbook. I don't 13 see what the -- I don't see that correlation.

MS. SPENCER: Okay. Let me see if I can clarify. 14 DR. MIEDEMA: If we have the information here, 15 and what we're requesting from the councils is just 16 those two pieces of information, I'm not real sure why 17 18 we need the actual handbook associated with -- by reference in here. You should be able to because you 19 are mature in those councils, to be able to run your 20 That's my perspective. A student handbook 21 business. has reference to faculty. Should a student handbook 22 23 be included here by reference because it talks about 24 some things that faculty's supposed to do? MS. SPENCER: But you know, in some of these 25

issues though, this affects faculty's livelihood, 1 right, it affects their wages? So it seems a 2 reasonable safeguard to say that these are included in 3 the contract by extension, so that if there is some 4 harm, we can come back and look at it and say, okay, 5 this is how we address this. Right? If that handbook 6 asks them to do something that's contrary to contract 7 or is -- I'm going to have the work on the particulars 8 there, but I saw it in the process of reviewing these 9 10 tender things, coming up with language along the lines of this and that. If we just say, instead of having 11 to do an MOU and say, for example, with this student 12 opinion survey, the list of things that are required 13 for faculty. And we don't get, what, a 9 percent 14 return on those opinions surveys, and maybe this time 15 will be different because of the interface you have? 16 I'm just wary of not having that included in the 17 contract. How do we grieve those issues if somebody's 18 rights are impugned, because the handbook -- here's 19 the thing, because a lot of the people that write 20 those things don't look at the contract carefully and 21 are maybe not as aware of the things that are in there 22 23 that we are. Because we look at it.

24 DR. MIEDEMA: Well, we'll talk about it when we 25 take a break. I'm not, at this point, ready to 1 concede that.

MS. SPENCER: All right. That's fine. So let me 2 put that aside then. Management Rights and 3 Prerogatives, should we move on to that? 4 DR. MIEDEMA: Yes. I just came up with labels 5 for the three sections, rather arbitrarily, Management 6 Rights, Subsequent Bargaining, and Normal Employee 7 Rights. 8 9 MS. SPENCER: Did we change "manning" in that 10 one? DR. MARSHALL: We did. I didn't even mark it 11 because we agreed to it. 12 DR. MIEDEMA: I didn't like the word "manning." 13 I liked "staffing" versus "manning." 14 DR. MARSHALL: So we're good with 7? 15 DR. MIEDEMA: Yes. 16 17 MS. SPENCER: We worked through a good bit of 18 Article 8. Can we just go -- let's go through --DR. MARSHALL: Piece by piece? 19 MS. SPENCER: Yeah, piece by piece. 20 21 DR. MARSHALL: Stop me when you see something. MS. SPENCER: Those highlights are just where 22 23 we're --24 DR. MARSHALL: Yeah, I'll change all those. DR. MIEDEMA: Make sure the numbers match the --25

1 whatever the new numbers might be.

2 MS. SPENCER: And then that's all -- oh, yeah, a 3 question about that.

4 DR. MARSHALL: 505 percent.

5 MS. SPENCER: Do you want -- all faculty members 6 may schedule a maximum of five hours of office time 7 online. You want it to say 50 percent?

8 DR. MIEDEMA: I'm just saying, it's the same 9 number, whichever makes more sense to faculty, that 10 it's five hours or up to 50 percent that can be done 11 out of sight.

MS. SPENCER: I just was concerned about, like -so for overload courses, you're -- the contract specifies that you have one -- you're available for one hour by appointment each week for every 30 load points. And then if nobody makes those appointments, you're not required to keep that, that --

DR. MIEDEMA: Well, that's something I want totalk about anyway.

Okay.

20 MS. SPENCER:

21 DR. MIEDEMA: That's why I put that in there. 22 MS. SPENCER: Okay. Well, let's hold off on 23 that.

24 DR. MARSHALL: So to clarify, you meant 50 25 percent here; is that right? 1

DR. MIEDEMA: Yeah.

MS. SPENCER: So if I'm teaching overload and 2 there's four additional hours or three additional 3 hours, what you want to do is you want to require that 4 -- so that implies that 50 percent of those hours I 5 would have to be on campus; is that right? All 6 faculty members may schedule a maximum of five hours 7 of office time online and -- okay. Tell us -- we 8 should talk about it, what you're thinking. 9

10 DR. MIEDEMA: Well, the question I had was, when you're teaching an overload, should not the students 11 have the same access to faculty members while you're 12 teaching your load? And that -- I mean, the way the 13 contract currently states is that, if the student 14 makes an appointment. So if the student doesn't make 15 an appointment, you don't have to be available to 16 them. Our adjuncts are expected to give 30 minutes of 17 18 office time for the students, but our full-time faculty don't have to unless a student actually makes 19 an appointment? That was the question. I just 20 wanted, philosophically, to understand why we -- and 21 we've had it in the contract for a while, but why do 22 23 we have that in the contract, that says that those 24 students, because it happens to be your overload, don't have the same access to you as your regular 25

1 students would have.

MS. SPENCER: They're actually getting more 2 access to the faculty. You're only required 30 3 minutes for adjunct, for every 30 points that -- or 4 three credits that you teach. And then here it's an 5 hour additional. So when I look at my schedule and I 6 recognize and I publish on the syllabus that I'm 7 available for an additional two hours if I'm teaching 8 60 load points extra. So they actually have more 9 10 access. If they need to talk to me in -- and then it's flexible, so you can meet them -- you can deal 11 with them at any time that works for both of you, 12 right, instead of having to schedule those. 13 That's a benefit to the students, it seems to me. 14

I mean, is there an issue -- is there a problem 15 with it? Because, I mean, the reality is -- and we 16 should talk about this, because the perception from 17 18 the faculty is -- and on this campus it's come up, and maybe this is where it's coming from, but -- so, for 19 example, the idea that somehow it's unfair that 20 faculty are only on campus for two days and that they 21 schedule their office hours online for the other two 22 23 days or something. This has come up, like the 24 perception of fairness, right, availability for students. But I think what it misses is that -- like, 25

this past weekend, I mean, I worked Friday, Friday 1 night I was on there, grading and dealing with student 2 issues, right, Saturday I was on there dealing with 3 students, Sunday night I was on there dealing with 4 students. I came back to campus on Sunday and dealt 5 with issues for my Monday night class. So, I mean, I 6 think the perception is somehow -- what we're hearing 7 -- what I'm wondering, and maybe we should talk about 8 is, from the college side of it, that somehow faculty 9 10 are getting off easy or that it's unfair or that we're not meeting the needs of the students, when what I'm 11 hearing from the faculty is that they feel like 12 they're working and they're meeting their obligations 13 and they're working weekends and they're working hours 14 when otherwise they wouldn't. If we're going to work 15 -- like, we're going to schedule four days a week. 16 So, I mean, there's a -- do you understand, there's a 17 18 disconnect here, or there's a -- maybe something we should talk about. So from your perception, is it --19 what's the driving force there? Just the idea that 20 it's unfair, like, how come you don't have to be here 21 four days, or -- I mean, I'm here all the time, but 22 23 that's another issue.

24 DR. MIEDEMA: It has nothing to do with fairness
25 between faculty and staff. What it has to do with is

1access to students. And that's the bottom line. We2need to know that we are here and available for the3students when they need to have someone to speak to.

4

MS. SPENCER: Absolutely.

5 DR. MIEDEMA: That's why I said I need to know 6 where that's coming from, even though it's been in the 7 contract for several years; because does that give our 8 students the access they would need? That's the 9 guestion. That's the --

10 MS. SPENCER: I think it does, but -- Niko? The only thing that I agree with is, 11 MR. KOUKOS: if all my work is done in my 10 office hours and I 12 have no other office hours -- no other work to be 13 done, now I'm going to sit there and wait an hour if 14 there's no students coming to talk to me. That's why 15 I like the by appointment. Because they know my 16 hours, it's posted on my syllabus, it's posted next to 17 18 my door, and if they need to talk with me, they say, hey, Instructor Koukos, I need to speak with you, they 19 schedule a time, I'm there for them. So it's not that 20 we're not available, it's just if there are no 21 students that need to see us, why do I need to be in 22 23 the office?

24 DR. MIEDEMA: Do the students actually call and 25 make appointments?

1

MR. KOUKOS: Oh, absolutely.

2 DR. MIEDEMA: Because my students, when I teach 3 as an adjunct, never call me for an appointment.

4 MR. KOUKOS: It's on all of our syllabuses that 5 all student interactions are by appointment. And that 6 can be in the middle of class, a student can say, hey, 7 I need to talk to you after class. So --

8 DR. MIEDEMA: I get a lot of e-mails when I teach 9 as an adjunct, I get a lot of phone calls, I don't get 10 people scheduling appointments. And that's just a 11 fact. That's why I asked for that conversation.

MS. SPENCER: So maybe we should -- I mean, I 12 13 think we agree with you that we need to be there for the students; and that's part of this, it gives you 14 flexibility and it -- you know, you meet with them, 15 talk with them all the time. So maybe we should look 16 at it, maybe we should evaluate it. Maybe we could 17 18 poll the students and see if this is an issue, do you feel that you have adequate access to faculty members? 19 Are they available when you need them? And then we --20 or maybe you have data on that? I mean, that would be 21 a way to look at it. That's a fair question, right, 22 23 are we meeting their needs?

24 DR. MIEDEMA: That's all I'm trying to get to is, 25 are we available for our students, because that's what

1 we're supposed to be here for.

2

MS. SPENCER: Absolutely.

3 DR. MIEDEMA: And rather than write the rules so 4 tightly that you do this, this, you can do this, you 5 can't do this, are we meeting the needs of our 6 students? If we're meeting the needs of the students, 7 you're not going to hear a complaint from me.

8 MR. ZACKS: Are the students complaining? Yes or 9 no?

10 DR. MIEDEMA: They're not going to complain to 11 me.

12 MR. ZACKS: They complain to us.

DR. MIEDEMA: They're going to complain to you, 13 and I may never hear about it unless you tell me 14 they're complaining they don't have access to you. 15 And are you going to call me up and say, Dr. Miedema, 16 my students think I'm not available to them? No. 17 18 That's not going to happen. They're just not going to do that. And that's the conversation we need to have. 19 And I'm not doubting that the majority of our faculty 20 are there for the students 100 percent. We just need 21 to make sure we have a clear understanding that our 22 23 student needs are being met. Does that mean that 24 students have the right to fail? Of course not. They don't do their work, they're going to fail. And when 25

1 they come to see me, because they do come to see me, I
2 have two questions for them: Did you know the rules?
3 And did your instructor consistently enforce them?
4 And if they say yes to both of those, I tell them, you
5 don't have a case. But we just need to make sure that
6 we're being as consistent as we can be in meeting the
7 needs of our students.

8 MS. SPENCER: So is there anything -- does the 9 college have any -- they used to conduct those student 10 satisfaction surveys, the -- this was years ago, they 11 did that kind of stuff. So is there anything in the 12 works from the administration side to assess student 13 satisfaction with programs and, you know, those kinds 14 of things? Is there anything you have --

DR. MIEDEMA: We do have a survey that will be 15 going out in the next few days to our students. We do 16 it on an annual basis. I cannot recall off the top of 17 my head the language that's referred to, do you have 18 the access to your faculty; but there is a question on 19 there that is, is your faculty available to you? 20 MS. SPENCER: Oh, so you do it every year? 21 DR. MIEDEMA: Uh-huh. 22 23 MS. SPENCER: So what does the data suggest? 24 DR. MIEDEMA: I don't have that in front of me. MS. SPENCER: Okay. But it was a problem, or --25

1 DR. MIEDEMA: In some cases, yes.

2 MS. SPENCER: Okay.

3 DR. MIEDEMA: Not in all cases. So that was just 4 the question. And I don't have a problem with leaving 5 this at the five hours, I was just putting it at 50 6 percent if we were going to go to something different 7 with the overload time. And that way it could all be 8 addressed at one time.

9 DR. MARSHALL: I have a question about the data. 10 Is it aggregated, or is it -- do you know who that 11 faculty member is that a student may have issue with, 12 or is this just aggregated data?

DR. MIEDEMA: Aggregated data. Otherwise youwouldn't get students to respond.

MR. PARKER: I appreciate your philosophy too, 15 because your time's valuable, you don't necessarily 16 want to be sitting there wasting an hour when 17 18 everything's done, you have other things to be doing. I think there's probably just a slight philosophical 19 thing. There are students that may say, shoot, I 20 didn't make that appointment with my professor, and as 21 a result, I didn't get the opportunity that might 22 23 have. And if you can honestly say there's never been 24 a student who has never taken advantage of one of those open hours because they didn't make an 25

appointment -- but that's, I think, the fear, that there are that group of students that might not make that appointment that may need to see you that if they knew you had an office hour and had the ability to go see you at that time, they might take advantage of that. Otherwise, they may not have been able to.

And, again, you know, a lot of times all this 7 stuff is really not written for the people in this 8 room and not written for 90 percent of our faculty, 95 9 10 percent of our faculty. I think it's just, again, you're trying to create that minimum expectation bar. 11 But hearing full well what you've said, you don't want 12 to force people to waste time when you have a very 13 organized way of doing things. But there are probably 14 students out there that are not getting the access 15 they need because some people are not rising to the 16 17 expectation that both sides of the table think they should. 18

MS. SPENCER: I think -- and it's like -- we're probably in agreement on this too, you have to be careful the way that, if you push too hard in the other direction, try to mandate, you have to do this, you have to have these hours -- I mean, there's nothing wrong with that, if you acknowledge that most faculty are probably meeting those and going above

Then you run the risk of creating ill will and 1 that. end up with faculty that only work the contract. And 2 that's not going to help the students or the 3 institution. And that's just -- I mean, I'm just 4 saying, like, it backfires. If we try to nail down 5 everything with you all and not leave any flexibility, 6 then we risk the same thing, and we don't want any ill 7 will on your part or -- you know what I mean. 8

MR. PARKER: Yeah. It has to make sense. But, 9 again, it's the kind of thing, if you were to say, 10 hey, you only have to work one day a week, you're 11 going to pay the 15 minimum threshold, even if you 12 teach one or two classes, everybody in this room's a 13 professional, you would say, absolutely, I would not 14 take advantage of that low threshold, my students 15 deserve more than that. You would be here teaching 16 just like you are now. But there are 2, 3, 4 percent 17 18 of the people here that would take advantage of that, would be here one day a week, would get paid 15 hours 19 for -- there are -- there always is in every business, 20 every occupation, a certain amount of people -- and 21 that's a lot of times, a lot of these words are 22 23 written for, is making sure that minimum threshold is 24 exactly where you want it to be. It makes sense. But a lot of times, it is kind of -- it does feel --25

sometimes it can be offensive because, again, the
 people in this room don't need to be told, you know,
 how to do certain things, you've got it. But we don't
 necessarily write those words for the people in this
 room.

6 MS. FERGUSON: If you ever pull a staff job 7 description, there's one line that you all will see on 8 every one is, "other duties as assigned." So that is 9 if I have a special project -- you know, it's not my 10 job. Who has heard that before?

MR. PARKER: Again, that example, 98 percent of 11 people, you never have to have that line in that --12 every single person -- 98 percent of the people here 13 that are staff would do anything you ask them to do, 14 but there's 2 or 3 percent that would say, that's not 15 in my job description. And that's why you have that 16 line there. But it's not like when I read that line, 17 18 when I see it, that I get offended by it, I understand why that's there. Because there are a small element 19 of people that would say that. And it's a shame that 20 the contract is this thick because of that reason, but 21 that's why it is. 22

23 DR. MIEDEMA: You're absolutely right. If we 24 didn't have to worry about making minimums in some of 25 this documentation, our contract would be 20 pages

long. And be, basically, do the right thing for the
 students at the right time, sign your name.

3 MS. SPENCER: We wouldn't need contracts4 anywhere.

5 DR. MIEDEMA: We wouldn't need a contract at all. 6 MS. SPENCER: We could just do business with a 7 handshake, right?

8 DR. MIEDEMA: Absolutely. But that was the 9 reason for that. And we don't necessarily have to 10 make a change to that, but I wanted to have that 11 conversation, that we need to make sure that the 12 understanding is very clear that if students need 13 access, they need access.

MS. SPENCER: Right. And if you can -- if you 14 get a chance to look at those surveys that you have 15 and see where the issue is and share that with us. I 16 mean, we could certainly revisit that. Niko suggested 17 18 something we could talk about, maybe doing 30 minutes per overload and make it consistent with the adjuncts; 19 but we could talk about that, see where the problem 20 is. 21

22 DR. MIEDEMA: That's one of the reasons I wanted 23 to bring it up. Because there's options.

24 DR. MARSHALL: The next is Instructional Faculty25 Responsibilities, 8.3.

1MS. SPENCER:8.6, right?8.3, 8.6?2DR. MARSHALL:Under Instructional Faculty3Responsibilities.

MS. SPENCER: Yeah, I think we talked about that,
didn't we? Oh, that one. Yeah. We have a couple
8.6's, don't we?

7 DR. MARSHALL: The numbering's not ever going to
8 be right until I finish it. It's just not.

MS. SPENCER: That is what we talked about. We 9 were looking at the rule, right? So you wanted to put 10 in there the rule about FAC 6A-14.0411. The language 11 that you originally proposed was -- your language 12 proposed putting in the rule, so that the college may 13 comply with FAC 6A-14.0411, right? And that's not 14 really -- that's about aggregated data that you have 15 to report, right? 16

17

DR. MIEDEMA: Yes.

18 MS. SPENCER: The purpose of it -- the purpose of the opinion surveys from the faculty perspective is so 19 that you can review the student feedback and improve 20 your teaching, correct? And to say, at the conclusion 21 of each term, per FAC, that's not really in the rule, 22 23 it doesn't say each term -- we were looking at the 24 rule again, so we're wary of putting that in there. DR. MIEDEMA: The original language said, "At the 25

conclusion of each academic term, for the sole 1 purposes of professional self-improvement and 2 continuous improvement of college-wide teaching and 3 learning." That's why we had struck that and put in 4 the rule. 5 MS. SPENCER: Okay. So how about if we -- for 6 the purpose of supporting teaching, learning, and so 7 the college may meet the requirements of --8 9 DR. MIEDEMA: That's absolutely fine. 10 MS. SPENCER: That works? DR. MIEDEMA: It made it sound like the only 11 purpose was so that you do self-reflection, and it's a 12 broader application. 13 MS. SPENCER: You following what I'm saying? 14 DR. MARSHALL: Uh-huh. 15 MS. SPENCER: So we can look at that? 16 17 DR. MIEDEMA: Absolutely. MS. SPENCER: We'll take a look at that when we 18 caucus and see if we can put -- we'll talk about that 19 language. 20 DR. MIEDEMA: That was the only reason for that. 21 MS. SPENCER: All right. So we're going to take 22 23 a look at that. 24 DR. MARSHALL: I found a redundant paragraph in there, I stripped it out, that's why I have the word 25

"counseling" highlighted. It had two --1 MS. SPENCER: "Librarians" in there. 2 DR. MIEDEMA: Okay. 3 DR. MARSHALL: And then there's that. I think we 4 have the wrong statute cited there. I think the 5 statute has changed, and this is the --6 MS. SPENCER: We looked through the -- what rule 7 is it, 1007.271? 8 9 DR. MARSHALL: Did you want the entire chapter, 10 or just the piece that deals with dual enrollment programs, 1007.271? Is that what we wanted in there, 11 12 or --DR. MIEDEMA: This is the dual enrollment 13 program, this is what we needed to --14 DR. MARSHALL: Okay. So we'll change it to that. 15 MS. SPENCER: And then, with the -- that language 16 was -- okay, so we'll look at that. 17 18 DR. MIEDEMA: The point in looking at the dual enrollment is that this is a continually moving and 19 developing process. What we have done so far with 20 increasing the admission requirements for any dual 21 enrollment, and having to pass a reading and writing 22 23 before they can take any of those classes, is we have 24 reduced our dual enrollment students by 30 percent already. So you have more prepared students in the 25

classroom than in the past years because they have 1 reached a higher score. And the legislature has told 2 us that we are not supposed to be limiting them. 3 They're saying we're supposed to accept students -- if 4 they're college ready, we should be accepting students 5 down to sixth grade at college. You and I both know 6 that that's probably not the best for them 7 academically. Which is the reason we put in tougher 8 standards to get in in the first place. So we no 9 10 longer have the same number percentage of students in each of our classes for dual enrollment because we're 11 down by at least 30 percent. 12

MS. SPENCER: But in that language, which is --13 which this was faculty concerns, and this was the --14 we were looking at the rule, it doesn't specify that 15 -- it doesn't prohibit you from limiting the number of 16 dual enrollment students in a particular section. 17 Ιt does? Because we looked through it. And the concern 18 was the collegiate experience for all of the students, 19 right. So in my 10:50 class, I have a whole room full 20 of kids who got off a bus and came in, and they're 21 good kids, but there's a woman in there that's our 22 23 age. And the first day, when we said, where are you 24 from, you rode the bus, I said to one girl; and she said, yeah. I go, what bus? She said, the school 25

bus. And I asked everybody else in the class, anybody
 else ride the bus? And every single hand in that
 class went up except for that woman that was sitting
 there.

So it's a concern from the perspective of the 5 faculty, and I think from the college too, and the 6 e-mails that went back and forth when this was 7 discussed, talking in the clusters, about the 8 collegiate experience for all the students. So that 9 10 you don't end up enrolling in a class and it's all a bunch of -- it does change the nature of the class. 11 And Debra, I think, sent some information -- she's had 12 conversations with Sandy Henfield about this. 13 And that's the concern, the collegiate experience for all 14 of our students, so that they don't feel like they're 15 coming to Eastern Florida and they're going to end up 16 in a high school class instead of a college class. 17

18 But we didn't see anywhere in the rule where it said you had to limit the -- you were unable to limit 19 the sections. And then this goes back from 2013 and 20 information from Julie Alexander, who -- is she still 21 vice chancellor for academic and student affairs for 22 23 the division of colleges? You said there was nothing 24 in the statute that would explicitly limit the dual enrollment students enrolled in a -- limiting the 25

1 number of dual enrollment students in --

DR. MIEDEMA: So what is your proposal? 2 MS. SPENCER: Just -- that's all, just that 3 That we would work on it together. That's 4 language. all. There's no teeth to it, it's just something in 5 there that we want you to know that it's a concern, 6 and I'm sure it's a shared concern. It's not to tie 7 your hands, it's just, like, let's look at it. That's 8 all. I mean, it's not a big change. We'll put the 9 statute in there. 10

MS. FERGUSON: So, basically, you're looking at making sure a student, no matter where they come from, is treated equally in the classroom.

MS. SPENCER: Yeah, that would be fine. Does that tie your hands in any way? It's not really a thing -- it's just saying we agree it's important, that everybody have a fair experience here.

18 DR. MIEDEMA: We'll discuss it when we break. MS. SPENCER: Okay. And Course Definitions, we 19 went through -- there's one -- can you scroll down, 20 Debra? This was a question for us. "An e-learning 21 course may employ audio, video, or computer 22 23 technologies within the approved online format." Do 24 you mean the Learning Management System adopted by the college? 25

DR. MIEDEMA: Yes. 1 MS. SPENCER: You don't mean, like, you're going 2 to hand us and say, you must have these and --3 DR. MIEDEMA: The Learning Management System. 4 MS. SPENCER: Is it okay if we alter that to say, 5 college-approved Learning Management System? 6 DR. MIEDEMA: Uh-huh. 7 MS. SPENCER: That's fine then. 8 9 DR. MARSHALL: So you want to change where it 10 says "approved online format" to the college's approved Learning Management System? 11 MS. SPENCER: Didn't we -- we looked at that, 12 right? 13 DR. MARSHALL: Well, this is the -- what's there 14 now, the language there now, is the change that Dr. 15 Miedema proposed. We just needed clarification as to 16 17 what that meant. That's all. So you're okay with us 18 crafting that a little differently? DR. MIEDEMA: Uh-huh. 19 DR. MARSHALL: Okay. I can do that when we go on 20 break. This is new. 21 MS. SPENCER: No, that's been in there. 22 23 DR. MARSHALL: Okay. So we're good there? 24 MS. SPENCER: I'm pretty sure that's been in there. 25

DR. MARSHALL: And this was the next, number 10. 1 MS. SPENCER: That just changed e-learning from 2 distance learning, that's all. 3 DR. MIEDEMA: The question there was, if a 4 faculty member says that they want -- it's okay to 5 have 31 or 32, rather than having to break it into --6 MS. SPENCER: Yeah. And you've been doing that 7 in practice. I mean, they've been really good about 8 it, you know --9 10 DR. MIEDEMA: Absolutely. I just wanted form to follow function. 11 MS. SPENCER: So do you want additional language 12 there, or --13 DR. MARSHALL: Just where it says, "unless agreed 14 to by the faculty member," at the end. I can change 15 that when we go on break. 16 MS. SPENCER: Okay. And then we're up to the 17 18 Value by Major Function. DR. MARSHALL: We had a change here to "Q," 19 because that whole section was definitions of the 20 types of courses, and then that piece was just stuck 21 in there. I think we addressed that with the 22 23 conversation before about things we're going to change 24 at the start of this article. Right? So --

MS. SPENCER: Where are we? We're at 8.6, Value

1 by Major Functions, and "Q"?

DR. MARSHALL: This is the piece that we took 2 from here, we struck it, and we put it up here. We 3 just had that conversation, right, that we're going to 4 put it somewhere in this top section up here, so that 5 it fits better with that paragraph of information. 6 Ιt will come up to here. This is where that will go. 7 Because it deals with the same program. 8 MS. SPENCER: So can you scroll down there again? 9 10 Let's make copies of that at caucus, okay, so we can look at that. While we're --11 12 DR. MARSHALL: Here you go. MS. SPENCER: No, I have this. I'm talking about 13 that, because I don't have that. 14 DR. MARSHALL: This is -- okay. So this piece 15 right here, "Q," where we have it -- we struck it 16 here, that piece is going to be up here, and we're 17 18 going re-craft this on caucus. This is that section right here, with the statute. That's what's going to 19 fit there. Because where it was before --20 DR. LAMB: It's not a definition. 21 DR. MARSHALL: It's not a definition of a class. 22 23 So this section is "other terms and conditions," it's 24 the top of that other terms and conditions section, we will put it in there. Does that make sense? 25

1

DR. MIEDEMA: Yes.

2 DR. MARSHALL: Okay. And we'll fix that language 3 and then strike it from the other section and you can 4 look at that when we get back. What's the next piece?

MS. SPENCER: Okay. And then the PSAV process, 5 that's where we were trying to get some equity for 6 these guys who have gotten clock hour -- they have to 7 work according to clock hour now because of the new 8 state requirements. So is there -- there is an 9 10 erosion of their pay because of that. So this was proposed in order to address that inequity. And if 11 there's another way to do it, we're interested in 12 looking at that, but are you --13

14 DR. MIEDEMA: Faculty who have taught in PSAV 15 programs in the past got paid based on contact hours 16 or credit hours for calculation of load, whichever 17 gave them the best deal. So it really isn't a change 18 for them. Because in most cases, the clock hours was 19 the best deal.

20 MR. HAZELTON: There is no more credit.

21 DR. MIEDEMA: I know. I understand that. I 22 understand that.

23 MR. HAZELTON: By contract, you have -- in your 24 contract, you have one credit equal in 12 and a half 25 hours, per the letter. In reality, your -- most of your faculty is teaching 200 hours face-to-face. And
 you're asking us to do our basic at 240. So that's
 where the disparity lies.

4 DR. MIEDEMA: I understand that.

5 MS. SPENCER: Is there a way we can address that? 6 We're talking about, I think, five full-time faculty 7 members. Is it welding, PSAV -- welding --

8 DR. MIEDEMA: Practical nursing --

9 MS. SPENCER: Practical nursing, cosmetology.

DR. MIEDEMA: Cosmetology. There's a number ofthose programs.

MS. SPENCER: So five -- more than that. Okay.
DR. MIEDEMA: Absolutely.

MS. SPENCER: Can you take a look at that? Can
you -- are you interested in taking a look at that?
DR. MIEDEMA: We'll talk about it when we break.
MS. SPENCER: Okay.

DR. MIEDEMA: That will be a significant cost to the college. And I would have to do that calculation to see what that cost to the college is.

21 MS. SPENCER: In terms of fairness, it just -- to 22 look at it and see --

23 DR. MIEDEMA: I understand that, and I understand 24 what you're saying, and we certainly want to be fair, 25 but we also want to take a look at PSAV programs. We

gain much less as far as tuition dollars than we do 1 for college credit, they cost less. And we're going 2 to be paying more. So we have to look at that 3 balance. So I have to get some financial information 4 in order to figure out where that balance is. 5 MS. SPENCER: Let me ask you a question, is 6 tuition determined for those programs the same as it 7 is for gen ed programs? 8 9 DR. MIEDEMA: No, it is not. 10 MS. SPENCER: Okay. Is it limited by the state in a different way than --11 DR. MIEDEMA: Yes, it is. 12 MS. SPENCER: Okay. All right. 13 DR. MIEDEMA: That's why, in some of the cases 14 where it makes sense, we're trying to move away from 15 PSAV and into AS degrees, because then we follow a 16 different set of rules. And our financial aid follows 17 18 a different set of rules, and it's a benefit to our students. That's why our medical assisting program 19 starting this fall will be an AS degree. Some 20 programs it makes sense, other programs not so much, 21 and that's what we have to look at. 22 23 MS. SPENCER: Okay. Thank you. 24 UNIDENTIFIED SPEAKER: Then it becomes a completer issue. 25

DR. MIEDEMA: Uh-huh. Yeah. For you guys, it's
 a very significant change that --

3 UNIDENTIFIED SPEAKER: We understand, and we know 4 the numbers. It's 11 and 40 for academics for a 5 face-to-face hour, basically, that amount, and 257 for 6 us. That's Tallahassee. That's ridiculous. 7 One-sixth of private. It's too little.

8 MS. SPENCER: Okay. So we'll talk about that. 9 The banking hours for the load point obligations, are 10 we still on that?

11

DR. MARSHALL: Uh-huh. That's here.

MS. SPENCER: So we had -- I mean, you were open 12 to the idea of banking it, and you already do that in 13 practice, so we drafted some language that we could go 14 over and we could look at it. Tried to think in terms 15 of -- starting with a basic year contract, it would be 16 by mutual agreement of the supervising administrator 17 18 and the faculty member that a faculty member could bank up to 150 load points. They would have to meet 19 their load point obligation for the contract period, 20 and we would start that with fall, the basic annual 21 contract, and academic contract for fall, spring, and 22 23 summer. They would have to defer compensation for 24 that until they spent the points. We wouldn't -- we don't have -- if it's something that can work, it's a 25

work in progress, so we wouldn't carry the bank points 1 longer than maybe four major academic semesters, or 2 two years; and there's room to address that. The 3 faculty could choose to use the bank points in any of 4 the following ways, and we can specify, right, 5 language, additional support for faculty --6 sabbatical, take a major semester off, reduce load 7 obligations, and subsequent semester -- reserve as a 8 payout. And, basically, it's an option to allow 9 10 faculty -- not to make it a regular practice, and you still would have -- the supervisor obviously has to 11 agree with them. It's not something you want to open 12 the flood gates and wreak havoc with your schedules 13 and your responsibilities, but in the event somebody 14 has a family event that's going on, an illness, those 15 might benefit or help the faculty, and also help the 16 17 college in semesters where you need coverage and maybe 18 you're not getting it, if you wanted somebody to teach night courses. I mean, all that could be worked out, 19 but that was -- that was a draft just for discussion, 20 and see how it worked out. 21

DR. MARSHALL: And none of that language is here.
That's just --

24 MS. SPENCER: Yeah, it's just in the sheet we 25 gave you. 1DR. MARSHALL: We were just having a little2session.

MS. SPENCER: Yeah. We tried to -DR. MIEDEMA: I appreciate that. We'll have the
HR expert look at that.

MS. SPENCER: I mean, you said you do some of 6 that anyway, but, like, I don't know if that --7 DR. MIEDEMA: We do do a little bit of that in 8 bits and pieces, when there's a need. And the 9 10 question has always been when each year starts and what happens to those faculty who may defer starting 11 when everyone else starts, and then they leave, and 12 they end up owing us money back. Which we don't want 13 to do. That's a terrible thing. You're leaving us, 14 and we're going to say, okay, you've got to give me a 15 thousand dollars back because you didn't work this 16 semester yet. So we want to just make sure that we 17 have a real clean process going forward. I don't have 18 any problem with the concept, I just want to make sure 19 that we're addressing it in a way that HR can keep 20 track of it and we're not going to have situations 21 where we have to take money back from people. Because 22 23 that's an awful thing to have to do.

24 MS. SPENCER: On that topic, like, the load 25 points, we talked about this, and I know you've been

working to do this, have load points automated and
 tied into Banner. So when the schedule's populated,
 there's your load point form. How close is that to - just wondering.

5 DR. MIEDEMA: We will be ready to test it in the 6 fall term.

7

MS. SPENCER: Oh, cool.

DR. MIEDEMA: So we'll take a few programs that 8 we anticipate could be more problematic and -- EMS 9 10 being one of those -- and run them through and see if it actually does calculations that are reasonable to 11 what we would calculate on our own. And then we'll be 12 able to move with that. And the idea being, you can 13 have a quicker turnaround with getting your overloads 14 added into your paycheck, without it being such a 15 manual process. So Betsy Wetzel is working on that, 16 and we will be ready to do it. I was hoping to do 17 18 some this summer. We may be able to do some, probably not summer A, but maybe by summer B or C we can test a 19 few and see how it works. 20

21 MS. SPENCER: Great. So there would be some 22 provision in that system somewhere down the road for, 23 this is banked? You would have that ability?

24 DR. MIEDEMA: Uh-huh. Yeah, we'd have to figure 25 that piece out. Yes. We have to figure that piece

out. We could certainly do that. Bill Klein, for
 one, already spreads his points over 12 months,
 because his program runs 12 months.

MR. KOUKOS: I don't think we're going to have the same issue that you were speaking of, of an instructor starting later than everybody and already getting paid, because these are hours that we're working up front, and you're banking the points. If we left, we would lose the money. They would get paid out at the end, but you guys aren't under that.

DR. MIEDEMA: That's why I just want to make sure 11 we have a system that can accommodate all of those 12 needs. Because there have been a couple situations 13 that -- nursing, I'll admit it, it's my program that 14 always causes the problems, we've had a couple nurses 15 leave for whatever reason, and actually owe us money. 16 And I just -- that is not a conversation I have much 17 18 fun dealing with. I don't like to say, I know that you're leaving, I know you have major medical 19 problems, but you still owe us money. That's just not 20 a very comfortable conversation to have. 21

22 MS. SPENCER: Absolutely. Okay. What else can 23 we visit in this?

24DR. MARSHALL: This is in overloads, 8.8, in "D".25MS. SPENCER: Yeah, you asked the question about

1 equitably -- I don't know, we always assumed that to 2 mean, like, if you had, like, five faculty members 3 that wanted overloads and there were 10 overloads, 4 you'd divide them up. Is there a better way to say 5 that? Like two each, or --

6 DR. MIEDEMA: Well, it's just a question as to 7 who determines that it's equitable. I may say it's 8 equitable that Niko gets more because he's such a good 9 teacher.

10

MS. SPENCER: Oh, I see.

DR. MIEDEMA: It's equitable to me because he does such a great job, I'm going to let him have it over somebody else. Or I have 14 credits and three people, so who gets the extra -- who gets shorted a credit? You get five, you get five, but you only get four. Is that still equitable?

17 MS. SPENCER: Rock, paper, scissors.

DR. MIEDEMA: If you're willing to go with rock,
paper, scissors, I'm okay with that.

20

MS. SPENCER: No.

21 DR. MIEDEMA: But I didn't know if there's a 22 better term. And that was just a question, because 23 it's one of those areas that it's equitable when it 24 makes sense to you.

25 MS. SPENCER: Distributed equitably, it means

1 you're going to -- yeah, I see. I see.

2 DR. MIEDEMA: As equitably as possible, or 3 something to -- that says we're trying it, but it may 4 not be perfect.

5 DR. MARSHALL: The next sentence does say, 6 "satisfactory or better rating receives preference 7 over others." So we have that covered. But could we 8 -- could there be a -- shall be distributed by number 9 -- fairly by number? Or something like that maybe 10 instead?

MR. AKERS: It could be, overload assignments 11 within a discipline shall be distributed by mutual 12 agreement between the faculty member and supervising 13 administrator and among the faculty with a 14 satisfactory or better evaluation requesting overload. 15 MS. SPENCER: Okay. I like that. 16 DR. MIEDEMA: Because maybe I only want to teach 17 18 three, I don't want six. I would like to teach three. DR. MARSHALL: I don't think that addresses the 19 concern though. 20

21

MS. SPENCER: Say that again?

22 MR. AKERS: Essentially, it would be by mutual 23 agreement between the faculty member and the 24 supervising administrator.

25

DR. MARSHALL: But who gets first dibs on

courses. That's the problem, right?
 MS. SPENCER: Is it a problem? Is it a problem?
 MR. KOUKOS: I was going to say, has there been
 an issue?

MS. SPENCER: Or how have you handled it so far
with overload distribution? You --

7 DR. MIEDEMA: I give it to whoever I want to.
8 I'm only kidding.

9 MS. SPENCER: At the provost meeting, don't you 10 go through and say, oh, so and so wants to teach more 11 than --

DR. MIEDEMA: The way we have addressed it thus 12 far is, we have brought any request over the 60 points 13 to the provosts as a group, and we discuss them. And 14 what we have said is, so and so wants to teach 200 15 load points next semester. These are the classes, 16 17 they're classes he or she routinely teaches, we've had 18 good student evaluations, what do you think? And we say okay. We have not looked at three people and 19 said, okay, give two of them to here, two of them to 20 here, and two of them to here. We've gone with what 21 we've had the request for at the time. It has not 22 23 been a problem. But in an interpretation of this part 24 of the contract, could it be a problem?

MS. FERGUSON: Could be.

25

1 MS. SPENCER: Okay. So we'll look at that. And 2 the reason you do that at the table is just to make 3 sure that everybody knows what's going on, it's just a 4 communications thing, it's not --

5 DR. MIEDEMA: It's for consistency. If someone 6 on one campus is saying, I don't allow anyone to teach 7 more than "X" amount of overload. We all have that 8 conversation.

9 MR. PARKER: I can make you laugh. How about you 10 trust the supervising administrator and pull the word 11 out. Because that's really what's been happening. 12 The supervising administrator is making the decision, 13 it's not been a problem. It's just that occasionally 14 there may be an issue where there has to be a decision 15 made because of --

MS. FERGUSON: Usually it's a last minutesituation.

18 MR. PARKER: Equitably is just very subjective.
19 I mean, what's equitable to someone may not be
20 equitable to someone else.

21 MS. SPENCER: So it's been a last minute 22 situation where, like, somebody -- but we have 23 language in there that said it's the responsibility of 24 the faculty to let you know in advance.

25

MS. FERGUSON: Yeah. But, I mean, I'm talking

about a last minute class has to be added. 1 That. happens a lot. And it's like the week -- I've had --2 MR. PARKER: Adjuncts leave. 3 MS. FERGUSON: Yeah. And we've had the day class 4 5 is supposed to start. MS. SPENCER: And so faculty are fighting over 6 that class, or --7 MS. FERGUSON: Not necessarily, but we have 8 scrambled before. And sometimes that's when some of 9 10 these exceptions have to go through. But, yeah, we've had to scramble to find them. We have that data bank 11 of credentialed adjuncts ready to go. 12 MS. SPENCER: Let's look at it. We'll make a 13 note to --14 DR. MIEDEMA: And it's not that it's been a 15 problem, it's just, is there a better way to say it? 16 17 MS. SPENCER: That's a good question. DR. MIEDEMA: So that we don't have a problem 18 going forward. 19 It's a good question, because we MS. SPENCER: 20 have something -- like Chuck is doing -- where's 21 Chuck? He's gone. He's credentialed to teach in 22 23 education and also, what is it, business he teaches or 24 computers or something. DR. MIEDEMA: Oh, you want to make it plural? 25

MS. SPENCER: I think it was already. Isn't it
 already like that?

3 DR. MARSHALL: Just instead of "areas," have
4 clusters?

5 MS. SPENCER: Yeah, we could change it to 6 cluster, that's -- would that be clearer for you? I 7 don't know that it is. We have a bunch of people that 8 are, sometimes they come to the humanities cluster, 9 sometimes they go to communications.

10 DR. MARSHALL: But I think if it's plural, that 11 solves the problem. Right? You can be assigned to 12 multiple teaching --

MS. SPENCER: But you're regularly assigned to - DR. MARSHALL: Well, you could be assigned to two
 clusters? Can you?

16

MS. SPENCER: Yeah.

DR. MIEDEMA: The question I have with saying cluster is the example that we've used before of a librarian who can teach in humanities. That's not the same cluster.

21

MS. SPENCER: Right.

22 DR. MIEDEMA: That's why "areas" makes more 23 sense. If you're credentialed to be able to teach in 24 another area -- Holly Kahler, good example, she can 25 teach in dental, as well as speech. They're not the

- same cluster. So if you say that cluster, then you
 just limited her.
- 3 MS. SPENCER: So we'll leave it -- I mean, I'm
 4 okay leaving it the way it is.

DR. MA

5

DR. MARSHALL: Leave it?

6 MS. SPENCER: Yeah. Okay. And that's for 7 non-tenured faculty, just added it back in. Because 8 that's part of a reassignment of -- return of 9 non-tenured track faculty to --

10 DR. MARSHALL: It's under the section for 11 re-entry of non-tenured faculty, so -- it's 8.11, and 12 then the next was, re-entry of non-tenured faculty who 13 accept, and then it's under B(2). So it's specific to 14 the non-tenured faculty group.

MS. SPENCER: In that copy from last week, is it
16 1584, or something like that.

DR. MIEDEMA: We were just trying to clarify the language, that they're both treated the same, but we can have sentences that say tenured versus non-tenured that says the same thing.

21 MS. SPENCER: Yeah. Because there are limits 22 here, like -- so non-tenured faculty returned can't 23 displace a -- it can't result in somebody -- the 24 reduction in force or somebody awaiting recall. So 25 it's a little bit different. And then did you want to

go to three-year terms beginning with the next -- at 1 the end of this next group of DC's? 2 DR. MIEDEMA: Starting in August? 3 MS. SPENCER: Starting with the termination of --4 whatever chairs roll off, yeah. 5 DR. MIEDEMA: The next roll off. Starting in 6 this August to -- '15 to '16 year, anyone who rolls 7 off. 8 MS. SPENCER: Yeah. The new reports would be a 9 10 three. DR. MIEDEMA: The new reports would be a 11 12 three-year. 13 MS. SPENCER: Is that what you want? You wanted to do that? 14 DR. MIEDEMA: I'm fine with that, if that's -- it 15 makes more sense from an evaluation perspective, 16 because you can be put on a cycle similar to what 17 18 full-time faculty get for their cycle. If that's appropriate. I don't have a problem with that. It 19 makes sense to me. 20 MS. SPENCER: Well, it's something you -- I think 21 you had expressed an interest in. A question while 22 23 we're on that, when those new chairs are appointed, is 24 there a list -- one of the chairs said to me, like, Lynn Demetriades needs to know who the new chairs are 25

-- like, there's a whole list of people that need to 1 know. Is Barb Kennedy the dean? Is she the one that 2 handles that? 3 DR. MIEDEMA: We just got the notice from 4 everybody yesterday, on the 15th, and we have the list 5 together now. 6 MS. SPENCER: Oh, great. 7 DR. MIEDEMA: And it'll be sent to --8 MS. SPENCER: Catherine Harwood and Lynn 9 10 Demetriades and --DR. MIEDEMA: Uh-huh. It will be posted on the 11 website. I just got it compiled yesterday. 12 DR. LAMB: I was thinking about that, because I'm 13 one of those who's giving it up. That's going to 14 change a lot. All of the property managers, all of 15 that stuff. 16 DR. MIEDEMA: It's a big change. 17 18 DR. LAMB: I don't have to worry about it. DR. MARSHALL: So we're okay with the language, 19 "to commence at the end of the current terms," right? 20 DR. MIEDEMA: Yes. 21 DR. MARSHALL: Okay. This is where we -- here's 22 23 where we are. Is there anything up here that we need 24 to address before we go on to the next page? MS. SPENCER: Uh-uh. Where the department chair 25

person -- okay. What is that? Are there changes that you wanted -- we were going to talk about that and see what --

4 DR. MARSHALL: I think the stuff that is 5 highlighted in yellow is the -- it's when we first 6 started working on this section. In one of our first 7 sessions, I think we kind of put that language in just 8 as a placeholder. The stuff that is not highlighted 9 in between, I believe, is information that the 10 administration came back with.

MS. SPENCER: No, that was part of the original.That was in there.

DR. MARSHALL: Well, part of it is, yes.
MS. SPENCER: Oh, and then so your 50 percent -yeah, that's --

DR. MARSHALL: Yeah. So the whole section here is sort of old and new stuff from both sides of the table. We just need to figure out where we're going to merge.

20 DR. MIEDEMA: The first paragraph there that 21 starts with "positions," that is what we discussed and 22 that is perfectly appropriate. You all okay with 23 that?

24 MS. SPENCER: Yep.

25 DR. MIEDEMA: All right. This next paragraph,

1 which is the two consecutive terms --

2

MS. SPENCER: Right. That was.

3 DR. MIEDEMA: -- that is the language that we 4 have had in the past, it was just further down in the 5 discussion points. And that is -- I don't have any 6 issues with that piece either. That's what we've had, 7 we just didn't have it there. We just kind of moved 8 it and changed a few words.

9 MS. SPENCER: And then that second one was to 10 address some concerns that you might have had with 11 everybody rolling off at once. That didn't --

DR. MIEDEMA: Yes. And I arbitrarily said 50 -if 50 percent or more of the department chairs are rolling off in the same year, that we can adjust some of the years. That's open for discussion. That was an arbitrary -- I have looked at, say, Palm Bay, and I think every single one of them rolls off the same year.

MR. PARKER: Going back up to 502 for a second.
Do you ever have occasion where you have a fourth term
that has to be served? Or is it only three sometimes?
MS. SPENCER: What?
MR. PARKER: Well, you're saying --

24 DR. MIEDEMA: The only thing there, it would be 25 if there is no one available. That's a good question.

If they do an extra term, and still at the end of that 1 extra term, nobody comes up --2 MR. PARKER: The way that's written, it's 3 deadlined, you can't use them. But if you were to 4 say, may serve additional terms with a consent. I 5 know that's probably a rare thing --6 MS. SPENCER: Okay, I see. 7 MR. PARKER: It's probably rare. 8 DR. MIEDEMA: It's probably very rare, but it 9 10 could happen. MR. PARKER: You'd be deadlined if you didn't say 11 additional terms. 12 MS. SPENCER: Okay, that's good. 13 DR. MARSHALL: So you want me to go ahead and 14 make that now? 15 MS. SPENCER: Uh-huh. 16 17 DR. MIEDEMA: Absolutely. 18 DR. MARSHALL: May serve additional terms. DR. MIEDEMA: Perfect. Thank you, Jack. 19 DR. MARSHALL: Does that need to be with the 20 majority consent of the full-time faculty? 21 MS. SPENCER: Yeah, I think that's a good idea. 22 23 Are you okay with that? 24 DR. MIEDEMA: Majority consent, yes. We don't want to have a super majority. We may never get 25

1 there.

2 MS. SPENCER: And the 50 percent thing, there's a 3 way to do that. I mean, we could stagger them. We 4 talked about that, doing two-year appointments and 5 some three-year appointments.

6 DR. MIEDEMA: Well, that's why I said, 7 arbitrarily, that if more than half of your DC's are 8 rolling off at the same time, that you -- when you go 9 to replace them, you may want to stagger some of the 10 new ones coming in. Do you want to be more specific 11 than that?

DR. MARSHALL: I think the only issue that I can see with that, either side of the table, is the issue of it being equitable to those who only get the two-year term versus the three-year term.

MS. SPENCER: So Palm Bay rolled over everybody this time?

18 DR. MIEDEMA: Yes, ma'am.

DR. MARSHALL: Which means they'll have the sameissue in four years, or however many we decide.

21 DR. MIEDEMA: I think all my program managers 22 except for one roll off at the same year. But in most 23 of those cases, they're one full-time faculty 24 departments, so it doesn't really matter. But if they 25 were more than one, they would all be leaving at the 1 same time.

MS. SPENCER: Do you want to --2 DR. LAMB: The consecutive language was just 3 added three years ago, right? It was new three years 4 5 ago? DR. MIEDEMA: Yes, sir. 6 DR. LAMB: So that's why this is happening. 7 Because I've been department chair for eight years. 8 9 DR. MIEDEMA: Yes, sir. 10 DR. MARSHALL: I think -- I have some ideas, but I think we need to caucus. Because I'm not sure --11 MS. SPENCER: Yeah, and I think --12 DR. MARSHALL: -- what's in my head. But I don't 13 -- when we get to that point, I think I might have 14 something. 15 DR. MIEDEMA: Okay. 16 17 DR. MARSHALL: And then I think I'll just put a 18 highlight there so that we know -- so we know that that's the problem area that's new to all of us. 19 MS. SPENCER: And then that was a question about 20 qualified applicants within the department. That was 21 -- is that an issue? We've already had precedence, 22 23 like, I mean, we had Karen MacArthur from library 24 serving as department chair humanities, right? DR. MIEDEMA: That's correct. 25

1 MS. SPENCER: So I don't know that -- is it --2 yes, sir?

3 DR. LAMB: What I always hear grumblings about is4 online department chairs.

5 MS. SPENCER: That's it. Yeah.

6 DR. LAMB: Are they their own department?

7 MS. SPENCER: Good question.

8 DR. MIEDEMA: I didn't understand that question. 9 MS. SPENCER: So with the e-learning, right, you 10 have four. With Karen MacArther serving as humanities 11 cluster chair, it seems reasonable that other faculty 12 that teach online could apply for those positions. 13 What's the perception that you have of that?

DR. MIEDEMA: Up to this point in time, the 14 definition has been the department, and the department 15 has been defined as e-learning. That is something 16 that I think can be open for discussion at this point 17 18 in time. I think one of the proposals that came up at some point earlier was if they had taught at least two 19 courses in that new department, that they could apply 20 21 to be department chair in that new department. So that is certainly language that we can look at. 22 The 23 question then becomes -- I'll tell you my whole caveat 24 with the whole process, which is, Chuck Kise only teaches online. Someone else comes in department 25

chair, do they continue to be a face-to-face faculty, 1 teaching two classes online, and being the department 2 chair, or do they become that 100 percent full-time 3 faculty online and Chuck has to go to face-to-face 4 classes. That's where the question comes in, and 5 that's why we've always defined them as their own 6 department, because we only have those few people that 7 are full-time online. 8

9 DR. LAMB: Is there a limit written somewhere to 10 the number of faculty who can teach 100 percent 11 online?

DR. MIEDEMA: We have not increased that number in the last several years, by design. It is something that can be discussed and can be looked at, but we have held the line on doing that in the recent past years.

DR. LAMB: Is there language in the current
contract that says the 150 points cannot be attained
by all online classes? I'm just asking.

20 DR. MIEDEMA: It says that online classes can be 21 part of load if agreed upon by your provost.

MS. SPENCER: No, it doesn't say agreed upon my
your provost, it just says it can be counted as load.
DR. LAMB: Part of load?
MS. SPENCER: Uh-huh. That's the language that's

1 in there now.

2 DR. MIEDEMA: May be included as part of load.
3 But there is something in there about --

MS. SPENCER: Online sections may be considered as part of the faculty member's regular load. That's been in there for a long time. But there's been practices at other -- at some of the campuses where it's treated that you can have that assignment as an overload. And that's --

10

DR. MIEDEMA: That's correct.

11DR. LAMB: But as the way it's written now, there12will never, ever, ever be any other department chairs13online, because no one else is qualified. Right?14MS. SPENCER: Except if we put that language of

15 two or more courses --

16 DR. LAMB: That's what I'm saying.

17 DR. MIEDEMA: That's why I'm saying that's open 18 for discussion.

19 DR. LAMB: Okay.

20 DR. MARSHALL: So I'll just leave that, right?21 MS. SPENCER: Leave that.

22 DR. MARSHALL: We know that's new.

23 MS. SPENCER: We moved this annual review part 24 under the qualifications on 8.12, Department Chairs, 25 to 9.3, where there's language already. So would it

make sense to you to move -- like, to move the Peer 1 Review, and then you wanted to change the review 2 process, so if we go to three years for department 3 chairs, you would do it once every three years from 4 the supervisor's perspective? And then we'd just put 5 that in. I don't know -- the discussion we had was, 6 why does that have to be here? It's not part of the 7 qualifications or duties, it's just like we put it in 8 the annual -- put it in 9.3, where it already is. 9 10 Just something to look at. DR. MIEDEMA: I have no problem with moving that 11 section to 9.3. 12 MS. SPENCER: It's already there, but --13 DR. MARSHALL: What is this one up above? 14 That was your --15 MS. SPENCER: That was the thing we were talking 16 about, the qualifications, yeah. 17 18 DR. MIEDEMA: Correct. I just wanted to make sure as we had this discussion that you all would 19 consider whether or not your proposal would be that 20 it's done as part of load, or if it's done as 21 overload. I don't know if it makes a difference, I 22 23 just thought that that was something that you as a 24 group might want to discuss and come up with some

consistency on. It may not make a difference at all.

25

It doesn't make a difference to me, but I thought I
 would bring it up so that you would have the
 opportunity to discuss it.

4 MS. SPENCER: Okay. That's the rest of that 5 language.

DR. MARSHALL: And those are the changes that you 6 made the last time, these new pieces here? 7 DR. MIEDEMA: Uh-huh. That's what I have. 8 DR. MARSHALL: I just wanted this section to be 9 10 uniform, like the other sections that we've already built, and I didn't know what to put in here. We 11 thought maybe, Robert, you would be able to help us 12 with some language for this section. 13

MS. SPENCER: Aren't you -- because you're acollege-wide coordinator.

16DR. LAMB: Is that what I am? Is that what17they're called?

DR. MARSHALL: So, for example, if you look up here at program manager, we have it broken out into duties --

MS. SPENCER: She just wants parallel --

21

22 DR. MARSHALL: Program coordinator, duties. 23 College-wide coordinator, what are their duties? Who 24 are these people? What do they do? That's all we --25 this is the only language we already had in the

1 contract for these people.

DR. LAMB: Correct.

3 DR. MARSHALL: Should there be more here? Is4 there a set list of responsibilities?

5 DR. LAMB: Let me look. I mean, we talked about 6 this, what was it, two years ago, when talking about 7 payment within that appendix. So I'm happy to look at 8 it and --

9 DR. MIEDEMA: This might help when you have that 10 discussion. This is just a draft of department chair 11 responsibilities.

MS. SPENCER: This is new, or -- this was in theappendix.

14DR. MIEDEMA: This is what I put in the original15appendix that I sent to you when we first started.

16

2

MS. SPENCER: Yeah.

DR. MIEDEMA: So this was my attempt at trying to pull some of these definers together. But it may help you as you have that discussion. By no means is this the end-all list, it just was to try and get a

21 conversation started.

MS. SPENCER: Okay. Thank you. Yeah, that'sjust both parties.

24 DR. MARSHALL: The same review language that we25 put further down.

MS. SPENCER: Okay. So that's deferred. 1 There was, like, some student -- there were some minor 2 changes that -- yeah. Like what we had talked about 3 last time. Within 24 hours notifying them. 4 DR. MIEDEMA: Practicing that. 5 DR. MARSHALL: Yeah, they're all there. 6 MS. SPENCER: And that's an ongoing 7 investigation? 8 9 DR. MARSHALL: Mr. Parker, this was your change 10 that you wanted to do. 11 MR. PARKER: Thank you. DR. LAMB: If a faculty member is no longer 12 faculty? 13 MS. SPENCER: What's that? 14 DR. LAMB: If a faculty member is no longer 15 faculty. 16 17 DR. MARSHALL: Where? DR. LAMB: Above 8.19, letter "F." 18 DR. MIEDEMA: If you leave, then I have to figure 19 out how to justify any grade changes. 20 DR. MARSHALL: It's the termination of 21 22 employment. 23 DR. LAMB: Oh, okay. 24 DR. MIEDEMA: Which means I give everybody an "A." Not really. 25

1 DR. LAMB: Yeah, okay. DR. MARSHALL: Nothing else there. We're to 2 Article 9. 3 MR. KOUKOS: Should we take a break? 4 MS. SPENCER: Yeah, do you want to take a break? 5 DR. MIEDEMA: 6 Okay. (Thereupon, a break was taken.) 7 DR. MIEDEMA: Okay. 8 MS. SPENCER: Do you want to start with the 9 10 handbook thing? DR. MIEDEMA: Sure, we can start with the 11 handbook. 12 MS. SPENCER: Debra's got something that might 13 help with this. 14 DR. MARSHALL: Well, I remember that we did have 15 discussion last time, or maybe two times ago that we 16 met, with Michael, about the handbook, and his 17 18 suggestion, which is probably taking a step backwards, would be to include the handbook as appendices, or 19 include the various handbooks as appendices. But one 20 thing that you might not be aware of is, when I 21 revised the handbooks the last time, I wasn't looking 22 23 at content necessarily, I was just trying to get a 24 structure established and get everything bookmarked properly, I did put a revision cycle in there. Now, 25

I'm not on that committee anymore moving forward, I 1 had enough of it before; but the last part of that 2 does say -- don't quote me verbatim, but it does say 3 that scrivener's errors can be handled throughout the 4 year, but major revisions now only happen on a yearly 5 cycle. So it's not going to be that constant effort 6 to get the book fixed anymore. One thing that we 7 might consider doing, instead of having the language 8 here, is maybe adding just a sentence or a small 9 10 clause somewhere that says that UFF will have the right to vet the handbook prior to major changes, 11 prior to dissemination to faculty. 12

DR. MIEDEMA: I like what you just said. 13 And let me explain why. My big concern with the handbook and 14 having that as attached and by reference into the 15 contract is that the handbook is reviewed by just a 16 small portion of the faculty, but it affects all of 17 18 the faculty. The contract is approved and ratified by all the faculty. So it's not the same type of a 19 process. If we don't -- if we want to make sure that 20 the handbooks are following the contract, I'm all for 21 that. I just don't think that it has the same type of 22 23 process as the contract. The contract, we negotiate 24 here, but then all the faculty have the opportunity. A handbook, they don't. And that's one of the reasons 25

I have a little bit of a concern with it. So a 1 statement in there that says before -- scrivener's 2 errors are fine, but anything other than that has to 3 be reviewed, to make sure that it is in compliance. 4 And if you have any questions, that you then bring it 5 to me, so that we can take a look at it and we can 6 resolve those things. I'm fine with that. I just 7 didn't want it to be seen by any of the faculty as a 8 way to bypass the contract. You know what I'm trying 9 10 to say?

DR. MARSHALL: So we can --

11

DR. MIEDEMA: That's really my concern is, Idon't want it to be a workaround.

DR. MARSHALL: We can structure that, and then send it back to you next week. My only issue, I think, or my only concern would be stepping on somebody's toes as far as councils are concerned. Are we within our purview to do that?

19 MS. SPENCER: Yeah, it's a --

20 DR. MIEDEMA: It is a contractual mandate that 21 administration recognizes these two councils. So the 22 way through the contract we are assigning the work on 23 these is through the handbooks being reviewed through 24 the UFF leadership. And I think that's very 25 appropriate. I'd be very comfortable with that. What

I don't want to continue to do is to be in a position 1 where I am everybody's mother, and I have to review 2 everything. Because you are grown-ups, and you should 3 be able to run your own business. I'm here as a 4 consultant, I'm here to assist in any way I can, but I 5 don't have to be your mother. So that's my thought. 6 MS. SPENCER: Okay. All right. We'll get that 7 to you. The DC thing, do you want to look at that? 8 9 Well, what do you want to look at? We had a couple 10 things that --DR. MIEDEMA: You just keep going. I'm happy to 11 get any work done on this that we can. 12 DR. MARSHALL: Down to the 50 percent and --13 MS. SPENCER: Was that -- above that, 8.3, 8.6. 14 DR. MARSHALL: The office hours? 15 MS. SPENCER: No. 16 17 DR. MARSHALL: Oh, sorry. 18 MS. SPENCER: 8.3, 8.6 was about the sole purpose for the surveys? Isn't it above that? 19 DR. MARSHALL: No, I think it was below that. 20 DR. MIEDEMA: We wanted to look under 8.12, 21 Department Chairs. 22 23 DR. MARSHALL: Here. It's right here. 24 DR. MIEDEMA: We had a couple questions there. DR. MARSHALL: Before we get that far, that would 25

1 be the next change then. Right?

2 MS. SPENCER: Yeah. That's one of those things. 3 So before we were talking about -- you were concerned 4 about how the original language said the sole purpose 5 of the surveys was for the improvement of teaching and 6 student learning; and we put in, and to assist the 7 administration with statutory compliance, or however 8 you want to say that.

9

DR. MIEDEMA: Perfect.

10 DR. MARSHALL: And it's okay to strike it out of 11 number seven there and just leave it up in six? 12 DR. MIEDEMA: Absolutely. That's fine. I'm fine 13 with that.

14 DR. MARSHALL: What's next?

MS. SPENCER: Load points are before that, right?
DR. MIEDEMA: Before you get to load points, you
had a question about the e-learning and department
chairs.

MS. SPENCER: Oh, that's right. We did not get to that discussion. We have language in there that says -- I think we need more time to look at that. DR. MIEDEMA: I just didn't want to lose it. MS. SPENCER: Yeah. Thank you. DR. MARSHALL: That was the next thing we had, but I don't know that we're --

MS. SPENCER: We have a democracy, so it takes
 longer. It's just --

3 DR. MARSHALL: I can speak to that if you want me 4 to.

5

MS. SPENCER: Yes.

6 DR. MARSHALL: So when we read the statute, the 7 statute does say that you can't limit the numbers of 8 students coming into the program, coming into college, 9 but it doesn't speak to placing some sort of limit on 10 the numbers in a classroom. Right?

MR. AKERS: Unless that limitation excludes the possibility of a dual-enrolled student joining a section that meets in a particular time of day. Dual-enrolled students must be allowed to --

15DR. MARSHALL: Or for graduation compliance.16MR. AKERS: Correct. It's a matter of equity.17We get into, perhaps, some discrimination issues if we18have very small offerings in a course when we reach a19certain ratio and dual-enrolled students may no longer20enroll in that section. That's where the statute21comes into play.

22 MS. SPENCER: Okay, I see. But that's the issue 23 with the collegiate high school, right, where they all 24 get off the bus at 10:00 and come to the 10:50 25 classes; and that's the class where you have one person who's -- how do -- I mean, that's mainly where
 that comes into play. The rest of the time the
 schedule's not an issue, it doesn't seem like.

4 DR. MIEDEMA: But there's also faculty that teach 5 collegiate high school by choice, and they know that 6 90 to 95 percent of their students are going to be 7 dual-enrollment students.

8

MS. SPENCER: This is true.

9 DR. MIEDEMA: So it's hard to put a specific 10 language in here because there's such a variety of 11 circumstances that do occur. And since these students 12 now do pay tuition, we don't want to be discriminating 13 against them, because -- they don't pay it, the school 14 has to pay it.

MS. SPENCER: The language is pretty soft. I
mean, it's just a statement of shared intent, but it's
not -- I mean, what are you thinking?

18 MR. PARKER: I just know the law doesn't want any 19 language that circumvents the purpose of the law, 20 which is that they have all unfettered access, just 21 like every other paying adult would to their 22 education. And any time you start to control or 23 manipulate it at all, that could be perceived as 24 circumventing the statute.

25

MS. SPENCER: That's not what -- the rule doesn't

1

address that, but I see where you're coming from.

2 DR. MIEDEMA: But that's why we say that we 3 follow the rule, because then we're not spelling it 4 out this way that can cause us problems. We know that 5 the rule does not say we cannot limit it in a section, 6 but we haven't put it in writing here. We say we're 7 following the statute.

8 MS. PARKER: It just takes a single complaint 9 from a single student for an equity concern for DOE or 10 other federal groups to come down and do an audit and 11 say that we're not complying.

DR. MARSHALL: But we could have the same situation happen with a student who's not dual-enrollment, maybe an older student, who gets into that section, and then says, I didn't sign up for that. You know what I mean?

MR. PARKER: True. True. And that's more of
a --

DR. MARSHALL: It is. It's a different kind ofissue, but there's two sides.

21 MR. PARKER: They still have access to the 22 classroom, they just don't like the environment. 23 That's a little bit different than saying, I don't 24 have access to the class.

25

DR. MARSHALL: Well, yes, it is, you're right.

DR. EARLE: Can I ask an informational question? 1 We aren't really fully open for dual-enrolled 2 students, because there are specific programs that 3 they are not allowed in. I'm just saying that. I 4 mean, is that against statute? Like they can't --5 They still have to meet the 6 MR. PARKER: qualifications of the programs, and that's probably 7 what's legally protecting us in certain claims, if 8

9 they don't meet the requirement of the class. But if 10 they meet the requirement of the class, then they have 11 to have access.

DR. MIEDEMA: The statute also addresses -- or 12 the administrative code also addresses the fact that 13 any program that they're in has to lead to a 14 certificate. Either an AA or a workforce-ready 15 certificate. So that's where they don't meet some of 16 the qualifications for some of our programs, because 17 18 by the time they get done with dual-enrollment, they're not eligible for a certificate. That's why, 19 for example, culinary is no longer on the list. It's 20 not that we didn't want them in culinary or they 21 didn't want culinary, but the 12 credits that they can 22 23 take as dual-enrollment in culinary did not lead to a 24 certificate. One does not exist. So the State took them off the list. 25

MS. SPENCER: Yeah, I don't - DR. MARSHALL: We'll have to consider that one a
 little bit more maybe.

4 DR. MIEDEMA: I just want to make sure that we're 5 not causing problems for us. I recognize that, and I 6 think that we are sensitive to the fact that some 7 faculty like having them in the class, some faculty do 8 not. And we try to work with faculty in that 9 situation. Is it perfect? No.

10 DR. MARSHALL: Are there specific times of day 11 where we have an abundance of dual-enrollment in our 12 sections?

DR. MIEDEMA: 10:00 until 2:00. Because that's
the period of time that the bus comes and the bus
leaves. 2:15, I believe.

DR. MARSHALL: That doesn't account for the ones who are driving their own vehicles though, so then we have that.

19DR. MIEDEMA: But the majority of them come in on20the bus.

21 DR. MARSHALL: Okay. And will they have access 22 to the buses still, moving forward? I know there had 23 been some discussion about that.

24 MS. SPENCER: Yeah, isn't there a provision in 25 the rule about that?

DR. MIEDEMA: At this time -- I will preface my 1 remarks, at this time, if they're enrolled in a 2 specific collegiate high school experience, they will 3 still get to ride the bus. If they are a 4 dual-enrollment student who happens to be coming to 5 class during that period of time, they're not supposed 6 to ride the bus. Even if they're coming and going at 7 the same time. That is per the School Board. 8 DR. LAMB: Brevard County, not the State, right? 9 DR. MIEDEMA: Brevard County. I just finished 10 meeting with Cindy Van Meter last week. 11 MS. SPENCER: Okay. Well, we might end up 12 striking that, or adding a -- yeah. 13 DR. MIEDEMA: That's fine. I'm just trying to 14 give you the -- a little bit of the background on 15 that. 16 MS. SPENCER: Okay. And then the PSAV question 17 is the next one, right? 18 DR. MARSHALL: We added that in. We added that 19 one in. We struck that, but that will move up if we 20 decide to. 21 DR. MIEDEMA: Absolutely. Yes. 22 23 MS. SPENCER: And then this. Is there some way 24 -- what do you think? You tell us what you're thinking. 25

DR. MIEDEMA: What I have done, I asked Mark 1 Cherry to do some research for me. I do not have the 2 answers right now. I cannot speak to that with any 3 degree of intelligence at this point in time. But 4 I've asked him to give me some information on how we 5 are handling the charging of tuition on the contact 6 hour, because that rate changes. I will know for sure 7 on Monday when it goes to the Board how that will be 8 paid, but I asked him to do that calculation so we can 9 10 take a look at it. One of the other pieces that we need to look at as we look at this, that I will need 11 for consideration, is in our PSAV programs, they tend 12 to be much more hands-on, and so the faculty member is 13 there with the students longer times and more direct 14 contact with their students during that period of 15 time. We do have a condition in the contract for my 16 nursing students that say they can put 50 percent of 17 18 their time, of their office time, as time that they spent with the students during the clinicals before 19 and after, because we know that they're doing student 20 advising. That is another option to do, which reduces 21 the amount of time that they have to be on campus 22 23 because it reduces the amount of office time. So 24 there's some options we can look at and provide some better equity for those faculty. I just don't have 25

enough information to answer that right now. 1 MS. SPENCER: That's fine. 2 MS. MARSHALL: We'll keep working on the banking 3 issue. 4 MS. SPENCER: Okay. 5 DR. MIEDEMA: Yes. Darla looked at that and she 6 says, I need a little time on this section. 7 MS. SPENCER: Understandable. 8 DR. MIEDEMA: So we would like to be able to look 9 10 at that and make sure that we're not breaking any other rules as we go to implement this one. 11 MS. SPENCER: Okay. And then we're just leaving 12 it "assigned areas." We talked about that already. 13 DR. MIEDEMA: That's fine. 14 DR. MARSHALL: I think that might be as far as we 15 had gotten. 16 MS. SPENCER: The department chair and the office 17 18 hours. Oh, yeah, the department chair thing. DR. MARSHALL: So let me take us back up to the 19 top of that piece. 20 MS. SPENCER: So we're at three-year terms, and 21 you're concerned about, like, everybody rolling off at 22 23 once? So then you would have the option to schedule 24 -- see the second paragraph? Wait, is it the second paragraph? 25

DR. MARSHALL: Highlighted in green. We struck
 some of the old language that was in there that just
 didn't make any sense. And --

DR. MIEDEMA: By lottery up to 50 percent.
MS. SPENCER: Yeah. And then going forward,
everything will be three years, then they'll be
staggered. Then you wouldn't have that issue. So you
have the option.

9 DR. MIEDEMA: I think that's very doable. 10 DR. LAMB: The concern being, if you're a new 11 department chair, you should know whether -- at the 12 beginning, whether you're volunteering for two or 13 three years.

14 DR. MIEDEMA: Oh, I agree. And I like the idea 15 of the lottery, so it's not looking like I have -- I 16 really like Robert, so he gets the three, the rest of 17 you only get two.

MS. FERGUSON: You had Koukos as your favorite awhile ago.

20 DR. MARSHALL: I'm never the favorite. You 21 notice that? I'm never the favorite.

DR. MIEDEMA: You're always the favorite. Thatgoes without saying.

24 DR. MARSHALL: So I think we still have to25 address the bottom piece there.

MS. SPENCER: Do you have a preference in that? 1 You do, you expressed your concerns. 2 DR. MIEDEMA: Do I have a preference in that? 3 MS. SPENCER: Yeah. 4 DR. MIEDEMA: I know the preference from the 5 e-learning department. 6 MS. SPENCER: We know that too, yeah. 7 DR. MIEDEMA: I also know that I would like to 8 encourage open access for department chairs. I think 9 10 the whole idea of us moving to this limitation is a good opportunity for more individuals to see what is 11 entailed in those roles. Because it's very easy to 12 13 think that your department chair, your program manager gets paid all this extra money for doing nothing, 14 until you're in that role. So I'm very open to the 15 discussion. 16 MS. SPENCER: Okay. 17 18 DR. MIEDEMA: Is that politically correct? MS. SPENCER: That was very diplomatic. You 19 could be a politician. Okay. So we'll have to see if 20 we can live with that, or if we want to look at that. 21

22 DR. MARSHALL: I think that's as far as we've 23 gotten.

24 MS. SPENCER: Okay. And then the 50 percent, we 25 talked a little bit about your proposal, 50 percent

hours. And then we'd like to see if there is a 1 problem -- and this was a question that was raised, 2 like, so the data's aggregated from the student 3 opinion thing --4 DR. MIEDEMA: I've already e-mailed you the 5 6 survey. MS. SPENCER: Oh, okay. 7 DR. MIEDEMA: That's one piece I was able to 8 accomplish while we were gone. 9 10 DR. MARSHALL: The results? DR. MIEDEMA: The results. I sent it to Lynn. 11 There's two things here in this discussion. First of 12 all, I'm going to turn this over to Tony, because he 13 did the math for me. The number of surveys that we 14 sent out and the number that agreed or strongly agreed 15 that faculty were available to them, and the number 16 that agreed or strongly disagreed that faculty were 17 18 available for them. And before he does that, I think what was most interesting in this survey is the 979 19 students that said it was not applicable. I'm not 20 quite sure how to interpret that. 21

22 DR. LAMB: Our concern was that we wanted to make 23 sure that we knew that the students who were answering 24 questions were describing full-time faculty, not 25 adjuncts. Because we don't bargain for them.

MR. AKERS: I believe the survey -- does the 1 2 survey say accessible, or available? DR. MIEDEMA: It says -- let me get my notes up 3 here. 4 DR. LAMB: I don't know if I trust students to 5 know who's adjunct and who's full-time anyway. 6 DR. MIEDEMA: I sent it to you too, so you might 7 be able to find it faster than I do. 8 9 MS. SPENCER: So you got 2014 and 2015 on that. 10 DR. MIEDEMA: The data did not vary that much. While we're looking that up, just tell us the 11 percentage that is showed. 12 MR. AKERS: The ones that answered strongly 13 agree, 3238; agreed was 1369. As Dr. Miedema said, 14 those that said this didn't apply was 979; and 240 15 disagreed. 16 MS. SPENCER: That's not too bad. That's not a 17 big percentage. So 3238, what's the percentage then? 18 DR. MIEDEMA: Probably about 5 percent. 19 20 MR. PARKER: Sort of tracks that percentage we're concerned about. Sort of tracks the reason for the 21 language. 22 23 DR. MARSHALL: But we don't know if those --24 MR. PARKER: Adjuncts or full-time. DR. MARSHALL: Right. 25

1	DR. MIEDEMA: We don't know, no.
2	MS. SPENCER: That's interesting.
3	DR. MARSHALL: Do we have anyway of correlating
4	to disciplines, or you don't have any way to
5	it's aggregated at the broadest
б	DR. MIEDEMA: Uh-huh.
7	DR. MARSHALL: Okay.
8	DR. MIEDEMA: One of the things that we did talk

about was the five hours versus and the 50 percent.
The reason that we have put it down as 50 percent -and I'm going to let Tony explain that, because he's
been a department chair and he can explain that.

MR. AKERS: As far as the accessibility aspect is 13 concerned, the five hours or 50 percent, it seems to 14 be a wash; but we're presupposing that we're looking 15 at a full load, in which the faculty member would be 16 required to hold 10 hours. But let's say that I'm a 17 department chair and I wish to take the two release 18 option for reduced stipend, so I take the reduced 19 stipend, I take the two semesters of release, that's 20 cutting down on my office hours as well and leaving 21 that time for my department chair duties. 22 If we left 23 it with five hours, I could theoretically spend five 24 hours of my advisement online and only meet with my students face-to-face for one hour. If it's 50 25

percent, it's always a maximum of 50 percent that I
can do online of however many hours, office hours, I
have available, depending on what -- not what contract
I'm in, but what my contractual arrangements are per
any extra duties I've taken on, program manager,
department chair, et cetera.

MS. SPENCER: I'd be interested in -- I 7 I'd be interested to know -- so, in terms understand. 8 of how much advising takes place face-to-face and how 9 10 much online. And I'm thinking about just, anecdotally -- I mean, I'm constantly online dealing with student 11 concerns and inquiries and dealing with them, paper 12 topics, what happened with this, what do I do to 13 improve. I mean, there's a lot of information that's 14 exchanged that way, so if there's a way to get that 15 out, because you're taking away -- I mean, the 16 flexibility's important. We talked about it, and 17 18 there's pros and cons to it. I think the faculty would be very upset to find that they would have to do 19 -- because the other side of that is, when you get 20 faculty who are doing a lot of overloads, if you're 21 saying 50 percent, you're talking about -- they are 22 23 mandated then to be on campus for additional hours for 24 office hours when maybe the most productive way to advise students is not necessarily to be in your 25

office. I mean -- and I don't know data we have on that. Is there a way to ask students, like, whether they prefer access to their instructors online, or is it -- are you more likely to go to the office. Like you said, the kids don't make appointments and -- so, I mean, maybe that's something that could be added, so we know better, like --

8 MR. AKERS: A possible benchmark is to look at 9 our distribution, of how many students are taking 10 face-to-face classes versus those that are opting for 11 e-learning classes. If we look at that distribution, 12 it's certainly not a 50-50 mix. We have many, many 13 more taking face-to-face classes. Those students 14 generally expect face-to-face advisement time.

So I don't know the answers to those questions as 15 far as specific ratios, but I do know that in my 16 current role as associate provost, I've had students 17 18 approach with concerns, some with complaints, others just guestions, about accessibility for their 19 instructors, because they did desire face-to-face 20 instruction. I think the concern is that we don't 21 unintentionally craft language that could leave 22 23 someone practically doing 80 to 90 percent of office 24 hours online, and not being available face-to-face for his or her students. 25

1 MS. SPENCER: So in the anecdotal example that 2 you gave, those students who come to you as associate 3 provost, are they generally frustrated or concerned 4 with full-time instructors, or is that --

5 MR. AKERS: Sometimes it is the case, not always. 6 Sometimes it is the case, yeah. It's all over the 7 board.

8 MS. SPENCER: Right. So addressing the concerns 9 of this 5 percent and the extraordinary 900 who didn't 10 think it was an issue --

11 MR. PARKER: I would just say on those, to defend 12 them, they probably just didn't need it. They've 13 never asked for access, so how can I judge it when I 14 didn't ask for access. I didn't need it.

MS. SPENCER: Right. And we get the concern, I 15 think, don't we? We do. And we want them to have 16 access, that's important, it matters. We just don't 17 18 want to make a change to something that is -- seems to be working. I mean, the faculty is productive, it 19 seems like -- well, I mean, "seems," here we go. We 20 do spend a lot of time online dealing with students. 21 And we heard this before for years, before we ever 22 23 went to this flexible thing in 2009, when we did this 24 contract and changed the faculty shared governance. That was always the discussion on the table at the 25

times when I went. They were like, well, you need to 1 be on campus. Well, if you're crossing campus, you 2 might run into a student, you have to be here. And it 3 seemed to be working. So before we, like, throw the 4 baby out with the bath water and upset a whole bunch 5 of people who are comfortable working on the weekends, 6 feel no qualms stepping away from the family dinner to 7 check the e-mail, respond. I don't know. I already 8 said it, but we'll just proceed with care before we do 9 10 it. And maybe your proposal would be acceptable, but just --11

DR. MIEDEMA: Well, it's going to be a wash forthose who teach five classes.

MS. SPENCER: Right. For the overloads, that'swhere it's going to be an issue.

DR. MIEDEMA: Well, if we did this where we said 16 that we knew that those who have released time are 17 18 still spending some time dealing with students, we could probably not touch the language for the 19 overloads. I just want to make sure that we have 20 access to our students. And that's what I said 21 earlier. I want to know we have access -- our 22 23 students have access. If we feel strongly, based on 24 survey data and the fact that faculty who are teaching a normal load are here and meeting the students, then, 25

yeah, can we talk about not making that change that I 1 had proposed under the overloads? Sure. I'm not 2 saying that that was they only answer, that was just 3 one possible way to take a look at making sure we have 4 some time available for our students. That seemed to 5 be an easy approach to me, we can do it a different 6 That's all I'm trying to say, is just to make 7 way. sure we have that accessibility. So I'm open to 8 suggestions. I'm open to ways that we can look at it. 9 10 I'm certainly not trying to be prescriptive and say, you must have your -- be sitting in your office and 11 twiddling your thumbs for this period of time. 12

MS. SPENCER: So just to be clear in the recent
-- in the data you just gave, that's 4 percent, 4.1
percent.

DR. MIEDEMA: I was going to say it was about 5, I didn't do the --

MS. SPENCER: Was it 970 that didn't -- right?
Because I added them in the total number.

20 MR. AKERS: The numbers, again, were 979 said it 21 did not apply, 240 were disagree.

22 MS. SPENCER: Right. And 3238 and 1369 were the 23 other ones, right?

24 DR. MIEDEMA: Uh-huh.

25 MR. AKERS: Were strongly agreed and agreed,

1 respectively.

MS. SPENCER: That's a pretty impressive number, 2 isn't it? I mean, if you have 3000 people saying --3 MR. PARKER: That's a good number. 4 MS. SPENCER: That's a -- that speaks well of the 5 faculty. 6 DR. MIEDEMA: Which is why I'm willing to look at 7 it again. 8 DR. LAMB: Another option is, that even the 279 9

10 students who said that they felt strongly they didn't have access, if I understand the question that was 11 asked them properly, it doesn't mean that they were 12 saying that their faculty members were not available, 13 they could have answered honestly because their 14 faculty members were not available face-to-face at 15 10:00 at night when they got off work and were 16 available. So it's also an option. 17

18 MR. PARKER: They could have had unrealistic19 expectations.

20 DR. MARSHALL: In the surveys that we give to our 21 students, the myriad surveys that we give to our 22 students, do we ask the question about what their 23 preference is for meeting with their faculty?

24 DR. MIEDEMA: The student survey -- this is part 25 of the routine student survey that we do every

semester, that has to be approved through negotiations
 what the questions are. So if we want to change those
 questions, we certainly can.

4 MS. SPENCER: Can we do that? Yeah, we can do 5 that.

6 DR. MARSHALL: I mean, that would be a question 7 for --

8 DR. MIEDEMA: It's part of our appendices that 9 these are the questions that we ask in that survey. 10 And that's where I got that information.

MS. SPENCER: If Michael were here he would say,
you probably want to do that survey first before you
agree to that.

DR. MIEDEMA: But it's certainly something that we, as we mature in our knowledge and interaction with our students, we may need to change those questions. And there's nothing wrong with changing those questions. But those have not changed because they were contractually bound to this.

20 MS. SPENCER: Okay. I think that would be 21 something we can do pretty simply, you know, add that, 22 because that's good data that you get and see where 23 the problems are.

24 DR. MIEDEMA: We certainly could look at that.
25 DR. MARSHALL: If you want to speak anecdotally,

I had to force a student to come see me for office 1 hours. She just wanted to Skype. That's all. And I 2 had to keep saying to her, you have to see me for 3 office hours in my office. I don't want to discuss 4 this online with you. So it goes both ways. 5 DR. MIEDEMA: Absolutely. 6 DR. MARSHALL: Anything else, Lynn? 7 MS. SPENCER: I think that was -- that was it. 8 DR. MARSHALL: And then we'll figure out the 9 10 language there for the handbooks. That's as far as we 11 got. MS. SPENCER: That is as far as we got. So we're 12 still -- this article always takes a long time, 13 doesn't it? 14 DR. MIEDEMA: This is the major one. This is 15 absolutely the major one. But I think we're making 16 good progress on it. 17 MS. SPENCER: So on the list of other things that 18 we won't get done today, should we take up 19 compensation? 20 DR. MIEDEMA: 21 Yes. MS. SPENCER: First of all, thank you for coming 22 23 back with a number last week. And I understand -- I 24 heard on the radio that they're going to extend the legislative session, state appropriations will be a 25

little further out. We had looked at the cost of 1 living, I've said this before, what the faculty have 2 accomplished, and I think you have said at the table 3 before that the college does appreciate what the 4 faculty -- the role the faculty plays and the 5 contributions they make. So we're on the same page as 6 far as that goes. So is it fair to say that, in terms 7 of what you have at your disposal, you're willing to 8 meet us in a compensation package that's fair and 9 10 treats us as professionals. And we've talked about that before. That's fair to say, isn't it? Right? 11 DR. MIEDEMA: At this point in time, that -- what 12 we gave you two weeks ago is all that I can offer. 13 MS. SPENCER: I understand. I just wanted --14 DR. MIEDEMA: Please don't put words in my mouth. 15 MS. SPENCER: I understand. No, I'm just 16 17 saying --18 DR. MIEDEMA: Absolutely. Absolutely. MS. SPENCER: -- we're on the same page as far as 19 understanding, like, we're doing a good job and we 20 should -- we have an expectation of fair compensation. 21 And you want to be fair to the extent that you're able 22 23 to do that. 24 DR. MIEDEMA: Absolutely.

25 MS. SPENCER: So in saying that -- but what are

-- what we had looked at together in looking at the 1 cost of living adjustments, the loss in terms of the 2 retirement contributions, and the stagnation and 3 erosion of wages, essentially, in the last few years, 4 is our counter, what we're looking for in the package 5 is more along the lines of four, three, and three. 6 And I do understand that you have to wait for your 7 state appropriations, but that's what we were looking 8 at, so -- across the board. And in terms of 9 10 structuring that, obviously, that's where we can discuss how to structure that, how that might be 11 managed, whether that's something that can be done in 12 three years, or whether that's something we do --13 that's why I said at the beginning, maybe one year you 14 could come back with something, we can see what the 15 State does, what the economy does, and then see how 16 that works out. So that's where we were. 17

DR. MIEDEMA: And I will certainly take that
information back. I obviously can't speak to it at
this point in time.

21

MS. SPENCER: I understand.

22 DR. MIEDEMA: The initial -- the offer that we 23 brought forth two weeks ago, we then will remove that 24 and we will look at what we can do through 25 appropriations. But I cannot speak to it yet. I can

take that back to Dr. Richey and let him know that this is where you want to be, this is where you want to head, but I cannot -- it could be, if worse comes to worse, that it's less than that, is all that I can offer. I can't say where we're going to be. I honestly cannot.

7 MS. SPENCER: Right. I understand that. And 8 that's why I said at the outset, when we wanted to 9 sign off on Article 4, the duration, if we look at it 10 on a one-year basis, if we have to, and not that I 11 love doing this, but --

DR. MIEDEMA: But it's so much fun. 12 But T understand that, so let me take that back and let him 13 know that that's the position that we're at at this 14 point in time, that we will continue to work on the 15 rest of the contract while we're waiting for 16 appropriations and determining where we are at, and 17 18 then we'll come back to that issue once we have a little more information. And that will help us to 19 decide whether it's a one-year or a three-year package 20 that we look at. 21

22 MS. SPENCER: Yeah. So looking at the next 23 meeting, we're coming into finals. So we have two 24 weeks, and I think the next -- two weeks out puts us 25 into finals? Is that correct? So Thursday afternoon, 1 and I don't know what their -- you exam schedule or 2 your exam schedule. Is that right? Have I got that 3 right?

4 DR. LAMB: We're still in classes two weeks from 5 today.

6 MS. SPENCER: Okay. That's good then. Is it 7 okay if we keep it scheduled for --

8 MR. KOUKOS: The week of May 4th is finals.
9 DR. MARSHALL: Yeah. So the meeting will be
10 April 30th.

11 MS. SPENCER: Okay. So we -- I said this last 12 time, that Debra Anderson, Dr. Goddard -- and you know 13 this, you've been part of all those conversations, 14 aligning, MCC, tenure language, all that. That's 15 Article 9, you know, Article 10. So we'll look at 16 that, and maybe next time we come back we'll tackle 17 those.

DR. MIEDEMA: Yeah. I would like to make sure that we have had the opportunity to look at the work that TPDC has been working specifically, to make sure that we have that common language and that we're following the things that we established through them. So absolutely. I think that that makes a lot of sense.

25

MS. SPENCER: Yeah. And there's language in 9

about -- was it 9? What we had planned to look at in
 9 about the opinion surveys. And this I wanted to
 talk to you about before we leave, if we have, like,
 two minutes, three minutes here.

5

DR. MIEDEMA: Sure.

6 MS. SPENCER: Faculty evaluations consist of --7 we had talked -- we had worked on this last summer or 8 the summer before, and that's still -- that's how you 9 proceed with that, or any changes that you want? You 10 want to think about it and --

DR. MIEDEMA: That is -- from my cursory view right now, the direction that we want to do. This needs to be a collaborative process. We do not finalize any evaluation until we sit down and do it together.

MS. SPENCER: Okay. And then if you would scroll down to the student opinion surveys. Oh, you had a question about this, why twice a term and -- just to clear that up, it's not twice a term, and they have the option for twice a year? Or is it something we need to change in that language?

22 DR. MIEDEMA: In each of the semesters taught. 23 MS. SPENCER: Yeah. We mean it by the year, yes. 24 DR. MIEDEMA: Okay. That was my question. Is it 25 twice a year, or four times a year?

DR. MARSHALL: Up to twice a year, period? 1 MS. SPENCER: Or once in each of the semesters 2 taught. 3 DR. MIEDEMA: That was my question. That made it 4 sound like four times a year. I don't know about you, 5 but I don't think you want me in your classroom four 6 times a year. 7 DR. MARSHALL: Once in each of the semesters 8 taught on contract? 9 10 MS. SPENCER: Maybe, yeah. DR. MARSHALL: Is that right? 11 MS. SPENCER: Up to -- yeah. 12 DR. LAMB: That's right. On contract. 13 MS. SPENCER: Okay. And student opinion surveys. 14 So the concern here, you know, from TPDC that required 15 to have student opinion surveys into every one of 16 their classes, and the return rates on those have been 17 18 really low. It allows for the supervising administrator and the faculty member to forego surveys 19 in some years when they don't have enough information, 20 but that really puts the tenure candidates in a bind. 21 So that could be part of what we discuss when we align 22 23 that language for the other articles. Or do we want 24 to put -- we're going to have to address that when we get to the tenure application and look at what 25

1 Debbie's done to --

25

2 DR. MIEDEMA: So are you saying you want to 3 eliminate the sentence that --

MS. SPENCER: No. No. But I just want -- I mean, is there a way to -- when they do forego those, that puts the tenure candidate in a bad spot. Or if you have people that are team teaching, that was an issue too, whose surveys are they. Wasn't that part of it?

10 DR. MIEDEMA: Yes. What we have done with the team surveys is, in those classes where we are team 11 teaching, students can choose multiple faculty. So 12 they can do an evaluation on each of the faculty that 13 are teaching in those team taught classes. So that 14 addresses that. I'm not sure when we ever say we 15 don't do it. My thought here is, we want to increase 16 the number of student opinion surveys is, open up all 17 18 of them, because you can pick and choose the ones that you want to use towards your tenure. So just do all 19 classes. Why do we limit it right now to two? 20 MS. SPENCER: Well, I think it's only for 21 full-time faculty, right, two surveys? But the 22 23 tenure, they have to have from every section they 24 teach. Don't they?

DR. MIEDEMA: I don't think they have to do it

1 for every --

2 MR. KOUKOS: It just says you have to have 3 student surveys, yes or no. It doesn't say a 4 percentage or --

5

MS. SPENCER: My apologies.

DR. MIEDEMA: Or we can open all of them, which 6 would give them more options. And that doesn't mean 7 that they get evaluated by their provost on all of 8 them, what we're asking in the evaluation process is 9 10 that you come, and when we sit down to talk, have you reviewed your student surveys? What have you learned 11 from them and what do you want to make any changes in? 12 It's a professional self-assessment of those things. 13 I don't want to sit down and say, you've got three bad 14 evaluations, and everybody else in the department only 15 got one, so what's going on in your classes? 16 That doesn't mean anything. 17

18

MS. SPENCER: Okay.

DR. MIEDEMA: What means something is for you to look at it and say, everyone who had a negative comment commented that I go too fast. Maybe I need to slow this section down, because I seem to be having trouble with it. That's what the professional person looks at when they look at their evaluations. MS. SPENCER: This is where, on the tenure applications, so copies of student opinion surveys for
 each section taught in the first five semesters.
 We'll address that later, but --

4 DR. MIEDEMA: Oh, yes. Oh, yes. We certainly 5 can open all of them, so that they can have more 6 volume, if they want.

MS. SPENCER: And then the only other thing --7 well, if we scroll down to -- was the 9.3, you wanted 8 every three years for the evaluation? Of department 9 10 chairs, program managers, program coordinators, college-wide? Or one every term? One evaluation 11 every term? See where it says in the second line 12 there, evaluated at least every two years, now that 13 we've changed it to three? 14

DR. MIEDEMA: Right. Evaluated by their
supervisor every three, but we'll still do the annual
peer review.

18 MS. SPENCER: Peer review, yeah.

19 DR. MARSHALL: So we're going to change that to 20 three?

21 MS. SPENCER: Or we could -- at least once during 22 each term.

23 DR. MIEDEMA: Every term of service.

24 MS. SPENCER: Okay.

25 DR. MARSHALL: But wait a minute, we decided that

we were going to lottery some of those people into a
 two-year cycle.

3 DR. LAMB: So say term of service, yes.

4 DR. MIEDEMA: I think that's a -- yeah, we need 5 to say at least once during their term of service. So 6 if you're on a two-year cycle, you're going to get 7 evaluated once in your two years.

8 MS. SPENCER: Yeah. And then we talked about --9 Debra and I talked about breaking it up so that the 10 peer assessment would be a different heading and, you 11 know, different letter or something. I don't know. 12 We'll deal with that later. Okay. And is there 13 anything you want to change in there?

14 DR. MIEDEMA: No. Those were my notes.

MS. SPENCER: Okay. I have a question before youleave, on 10.5.

17 DR. MIEDEMA: Yes?

18 MS. SPENCER: Why is it in there? I asked 19 Michael about it, and he said it was something the 20 college asked for. It seems like it ties our hands in 21 some ways, but I don't --

22 DR. MIEDEMA: It's been there as long as I've 23 been involved in negotiations. I do not know what 24 precipitated it.

25

MS. SPENCER: Okay. I don't know if it's

something we still need, or --1 DR. MIEDEMA: We'll find out. I honestly don't 2 know. It's always been there. 3 MS. FERGUSON: I remember something vaguely a 4 long time ago, but I'll have to check. 5 MS. SPENCER: Maybe back when you were required 6 to do a certain percentage. Okay. So two weeks. 7 DR. MIEDEMA: Two weeks. And we'll look at 11, 8 9 12 --DR. MARSHALL: 9, 10, 11, and 12. 10 DR. MIEDEMA: 9, 10, 11, 12. Now, 9 and 10 will 11 probably be almost ready. 11, 12 -- 12, there's not 12 much involved that I think would be things that need 13 to be --14 MS. SPENCER: It'll be Darla's. 15 DR. MIEDEMA: I don't think there's too much in 16 11 is the one that we need to take some time 17 12. with, making sure we're all in agreement on it. 18 MS. SPENCER: Last question, with 11, we had 19 briefly talked about introducing a parallel rank 20 schedule for PSAV and AS and faculty who teach in 21 career and technical programs who might not have 22 23 advanced degrees, and you're still open to looking at 24 something like that? DR. MIEDEMA: Absolutely. 25

1	MS. SPENCER: Very good. That's it.
2	DR. MIEDEMA: Thank you.
3	(Thereupon, the meeting was concluded.)
